SUGGESTIONS FOR SENDING ORDERS

PLEASE READ CAREFULLY

Use Order Sheet Put your name and address at the top of the order sheet enclosed, in the column to your left, the quantity, in the middle column, the kinds of seed you desire, and in the column on the right, the catalog price. Be sure to write very plainly, to avoid errors. Please see that all your correspondence bears your full name and address.

Errors The most diligent care will not prevent errors, and I ask that you keep a record of your order and check the goods when received; should any omission occur, please write me at once and I will make satisfactory corrections, but do not return goods unless so advised.

I Send all seeds postpaid and guarantee their safe arrival. All orders received to the amount of \$1.50 and upwards will be forwarded by insured mail at my expense.

Quantity of Seeds in a Packet Customers will please note that I state number of seeds in a packet, which will enable those wishing to plant borders and beds of a certain length or size to determine the number of packages required. FULL COUNT GUARANTEED. No less quantity than a package can be sold.

Free Premium 30 cents' worth of seeds extra allowed on all orders for seeds amounting to \$1.00; 15 cents' worth on all orders amounting to 50 cents. This liberal premium is the same as 30 per cent. discount, but must be selected in seeds, and the order for the premium must accompany the original order for the seeds.

Bear in Mind I cannot allow plants to be selected as premiums on seeds, neither can I allow premiums to be selected on plants or rose orders; I am offering them at such an extremely low price to introduce them to my patrons, to add a premium is simply impossible. Plants and roses will be shipped as soon as weather will permit.

Make out a list of Free Packet Seeds, and remember, that only seeds in packages can be selected FREE—not by the ounce, one-fourth pound, or collections. No FREE seeds with Grass Seed, Fertilizer, Tobacco Soap or Plants.

"Floral Culture" An attractive booklet which contains full cultural directions and points out how to grow flowers from seeds. Valuable to all interested in flowers. Mailed free with every order.

How to Remit Money Send money by Post Office Money Order, Express Money Order, Registered Letter or Bank Draft, thus insuring its reaching me safely. I especially request that you remit money by any of the above safe methods. Please do not send stamps unless you have no other way of remitting, as they stick together, but should you use stamps, the two-cent denomination is preferred. Positively no Canadian postage stamps accepted. If money is sent in any other way than specified above, it must be at your own risk. If you send personal check, please include 10 cents to cover exchange.

Please make sure your Name and Address is written plainly on all orders.
Address all correspondence to—

CARRIE H. LIPPINCOTT,

The Pioneer Seedswoman of America

Formerly of Minneapolis.

HUDSON, WISCONSIN.

Lippincott's Reliable Seeds For The Season of 1914

The time of planting is with us again, and we are mailing our little catalogue as a reminder to you, that it is time to get ready for your garden.

As the first consideration is the grassy lawn, we will call your attention first to our lawn grass mixture, the mixtures are carefully made and tested, money will not buy better.

You will kindly note we have reduced the prices on all packets of seeds, making every page a bargain page, but have not reduced the quantity of seeds in the packet, in many cases we have increased the count.

While the conditions governing the planting of seeds are such, as soil, weather conditions, etc., no one can guarantee the seeds positively to grow, but we do guarantee them to be fresh and fully as good as offered by any other house.

Thanking you all most cordially for past patronage, and soliciting your future orders, which shall have our usual prompt and careful attention.

Very sincerely yours,

CARRIE H. LIPPINCOTT.

A BEAUTIFUL LAWN.

With its close, velvety turf, is a most essential feature in the adornment of all suburban homes. Without it the finest flowering plants and heddiug seem insignificant, while with it handsome grounds are assured, even with no other adornment.

LAWN GRASS SEED.

Is composed of a mixture of grasses best adapted to produce a permanent and fine turf, so that a rich, deep, green, velvety lawn is constantly maintained. Bear in mind, my finest quality Lawn Grass Seed runs 20 lbs. to the bushel and is the best mixture on the market for the money.

Finest Quality....Quart\$0.25

Finest Quality....2 Quarts45

Finest Quality....Peck\$1.25

Finest Quality....Bushel 5.00

SHADY PLACE GRASS.

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundance and even growth of beautiful grass. The grasses used in making this special mixture are only those that are well adapted for growing in the shade. It has been successfully used where a green sward was desired on land partially shaded by old trees.

Quart, 35 cts.; 2 Quarts, 60 cts.; Peck, \$1.50; Bushel, \$6.00.

WHITE CLOVER.

This thrives in almost every soil and climate, succeeding equally well on heavy moist land and thin dry hillsides. It is of low-creeping growth and most valuable for green velvet lawns.

45 cents per lb., Postpaid.

Lawn Grass Seed by peck or bushel by express at purchaser's expense, and on all orders by mail for more than 2 quarts, please add 5 cents per quart to cover postage.

LIPPINCOTT'S CHOICE ASTER SEEDS.

Asters are of very easy culture. The seeds can be sown in May, in the open ground for bloom in September and October; for earlier bloom they should be sown in boxes in the house, in cold frames or hotbeds, in March or April.

QUEEN OF THE MARKET—Of graceful spreading habit, it is in full flower two weeks before most other Asters. Deep blue, white, pink and rose in mixture. Pkt., 150 seeds, 5 cts.

WHITE OSTRICH PLUME.

Plants of strong branching growth, 15 to 18 inches in height. The large size of the flowers, the fine feathery appearance, long stiff stem, and early flowering habit combine to make it most desirable for decorations.

Pkt., 150 seeds, 8 cts.

VICK'S ROSE KING ASTER.

Is a bright, brilliant rose color. It possesses all the characteristics of a good Aster vigorous in habit, with stems frequently two feet in length, flowers large as saucers, crowns completely covered, a good keeping variety and unsurpassed for cutting. Petals are stiff and strong and do not show the effects of cutting until long after many other varieties would be completely wilted. Pkt., 150 seeds, 8 cts.

DAYBREAK.

DAYBREAK ASTER

Incurved petals. The broad silvery petals are suffused with soft delicate pink.

The plants grow stiffly erect, eighteen to twenty inches in height, with ten to fifteen branches, each bearing a very large extremely double flower with silvery petals are suffused with soft delicate pink.

CARDINAL.

THE BEST BEDDING ASTER EVER INTRODUCED—The coloring of this Aster is entirely distinct from any other Aster on the market today. This variety is particularly adapted for bedding, owing to its free blooming qualities and brilliant coloring. When massed in a bed, its deep vivid cardinal color is as striking as the brilliant scarlet Salvia. Begins blooming the first to middle of August, retaining its brilliant coloring and full, well-developed flowers until late in the fall. Pkt., 150 seeds, 8 cts.

EARLY SNOWDRIFT.

IS CERTAINLY THE EARLIEST ASTER IN CULTIVATION—The leaves are narrow and sparse, and the branches spring from close to the ground. The entire energy of the plant seems given to the production of twelve to twenty long, slender, upright stems, crowned with immense feathery flowers. The long, recurved petals give the flowers an exceedingly graceful effect, heightened in many cases by the ragged, irregular character of the petals in the center of the flower. The flowers all come perfectly double. Pkt., 150 seeds, 8 cts.

ROYAL PURPLE.

A new strain of Late Branching Aster, growing about fifteen inches high. Its habit of growth is entirely distinct, the stems growing directly from the ground, and not on side shoots from the main stem like other varieties. Nine out of twelve flowers are sufficiently large for cutting, either for house decoration or florists' use. A medium early bloomer, continuing in flower until late in the fall. The flowers are large and full to the center; petals fine and somewhat incurved; color bright purple. Pkt., 150 seeds, 8 cts.

PERFECTION ASTER.

One of the most perfect and deservedly one of the most popular of all Asters; very double, large and beautiful flowers, with incurved petals; height, 18 inches to 2 feet; nearly thirty distinct colors, mixed.

Pkt., 150 seeds, 5 cts.
 Perfection—Snow white
 Pkt., 150 seeds, 5 cts.
 Perfection—Pink Ball
 Pkt., 150 seeds, 5 cts.
 Perfection—Crim. Ball
 Pkt., 150 seeds, 5 cts.
 Perfection—Purple
 Pkt., 150 seeds, 5 cts.

HOHENZOLL-ERN ASTER.

Ostrich Feather type of Asters. Much larger than the Giant Comet, the petals longer and more curled and twisted, and produced in great abundance. Borne on long stems which make it very desirable for cut flowers. Mixed colors.

Pkt., 150 seeds, 5 cts.

**GIANT CREGO ASTER.**

Flowers are very large and fluffy, averaging 4 to 6 inches in diameter and very full to the center. Plants are vigorous, producing strong stems, 20 to 30 inches in length.

See illustration on front cover. Pkt., 150 seeds, 6 cts.; 2 pkts., 10 cts.

MIKADO PINK "ROCHESTER."

In size and beauty the Rochester is equal to the Crego Aster. It comes in to bloom about ten days earlier. The color is a most exquisite shade of lavender pink. The petals are very long and narrow and so curled as to give the blossom a most beautiful appearance; slender, upright stems carrying 15 to 20 immense feathery flowers. Pkt., 150 seeds, 8c.

Our Asters were just beautiful and my Job's tears I got two large strings from 4 plants.

Floy E. Dennis.
 Platteville, Wis.

**NEW WHITE BRANCHING ASTER.**

The magnificent, large, double, white flowers, quite four inches in diameter, are borne on long stems, making them excellent for cutting. Pkt., 150 seeds, 5c.

NEW GIANT COMET ASTER.

The plants of this variety are perfectly true in character, growing 12 to 15 inches high and covered with large double flowers, as shown in the illustration. The flowers measure from $3\frac{1}{2}$ to $4\frac{1}{2}$ inches in diameter, resembling in shape and artistically curved and twisted petals the finest Chinese Chrysanthemums. Mixed colors .Pkt., 150 seeds, 5 cts.

Pure white. . . Pkt., 150 seeds, 5 cts.
 Deep scarlet. . . Pkt., 150 seeds, 5 cts.
 Light blue. . . Pkt., 150 seeds, 5 cts.
 Pure lilac. . . Pkt., 150 seeds, 5 cts.
 Pure pink . . . Pkt., 150 seeds, 5 cts.

HARLEQUIN ASTER.

The striking Aster of great hearty, upright habits, a profuse bloomer. Composed of pure white petals, quaintly interspersed in irregular manner with deep blue and bright red petals. Pkt., 150 seeds, 5 cts.

ASTER, FIRE KING.

THE MOST BRILLIANT ASTER EVER INTRODUCED, and the nearest approach to scarlet yet obtained.

NEW GIANT COMET ASTER.

Habit, very compact, not more than 12 inches in height, with large, beautifully incurved flowers, and makes a charming companion to "Snowball." Pkt., 150 seeds, 5 cts.

ASTER, SNOWBALL.

A MOST DISTINCT AND HANDSOME VARIETY, EQUALLY VALUABLE FOR POT CULTURE AND CUT FLOWERS—it is a most profuse bloomer, a single plant often producing as many as 25 to 30 pure snow white flowers, glohular in form and of extraordinary size. Pkt., 150 seeds, 5 cts.

NEW YELLOW ASTER.

The form of the double flower is a perfect ball; the quills are close together and of the brightest sulphur yellow. The flowers are borne upon long, erect stems, excellent for cutting. Plants, 12 to 15 inches high, are of compact, hardy growth, and most abundant bloomers. Pkt., 150 seeds, 5 cts.

THE CORNFLOWER ASTER.

STOKESIA CYANEA—This is one of our most charming and beautiful native hardy plants. The plant grows from 18 to 24 inches high, bearing freely from early July until frost, its handsome lavender-blue Centaurea-like blossoms each measuring from 4 to 5 inches across. It is of the easiest culture, succeeding in any open, sunny position, and is not only desirable as a single plant in the mixed hardy border, but can be used with fine effect in masses or beds of any size. Pkt., 100 seeds, 5 cts.

SEMPLE'S BRANCHING.

This is a magnificent American strain, producing handsome double flowers on long stems. Mixed colors. Pkt., 150 seeds, 4 cts.

Semple's Branching—Crimson. Pkt., 100 seeds, 4 cts.
 Semple's Branching—Lavender. Pkt., 100 seeds, 4 cts.
 Semple's Branching—Pink. Pkt., 100 seeds, 4 cts.
 Semple's Branching—White. Pkt., 100 seeds, 4 cts.
 Semple's Branching—Rose. Pkt., 100 seeds, 4 cts.

ASTERS, FINEST MIXED.

Of all varieties, such as Victoria, Perfection, Comet, Harlequin, etc.
 Pkt., 150 seeds, 5 cts.; oz., 75 cts.

NOTICE. One packet each of the entire collection of Asters, 34 packets, including Giant Crego illustrated on front cover for \$1.50. This collection, straight catalogue prices would cost you \$1.80.

SWEET PEAS, SPENCER TYPE.

GIANT ORCHID FLOWERING TYPE.
In this we have a new class of Sweet Peas. Flowers of enormous size, with both standards and wings waved and fluted, while the flowers are loosely and gracefully set on the stems; plants healthy and vigorous, and produce strong-stemmed flowers of great substance. The perfect-formed blossoms often measure two inches across.

ASTA OHN SPENCER—The flowers are very large, waved and fluted in standard, with large, thoroughly waved wings. The stems are long and sturdy, each stem bears four flowers. The color throughout is a soft lavender, suffused with mauve. It comes absolutely true. Pkt., 75 seeds, 8 cts.; oz., 25 cts.

WHITE SPENCER—Flowers absolutely pure white, standards waved, crinkled and fluted; 3 to 4 blossoms to a stem; stems 12 to 15 inches in length. Pkt., 100 seeds, 8 cts.; oz., 15 cts.

KING EDWARD SPENCER—The enormous flowers are frilled, waved and crinkled. The unusually large wings make the flowers appear truly gigantic in size, of glossy effect. The wings are also carmine, deepening toward the edges of a deep rose carmine. The stems are 12 to 15 inches long and frequently carry four fine blooms, while the majority bear three flowers. The stems are thick and heavy, the vines vigorous and thrifty. Pkt., 75 seeds, 8 cts.; oz., 20 cts.

The standard is deep rich carmine-scarlet of glossy effect. The wings are also carmine, deepening toward the edges of a deep rose carmine. The stems are 12 to 15 inches long and frequently carry four fine blooms, while the majority bear three flowers. The stems are thick and heavy, the vines vigorous and thrifty. Pkt., 75 seeds, 8 cts.; oz., 20 cts.

OTHELLO SPENCER—This beautiful Sweet Pea of the true Spencer type will appeal to those having a preference for the darker colors. The flowers come uniformly true to type, being beautifully waved or crinkled both in standard and wings. The stems are thick and long and carry three or four blooms of a rich deep maroon. Pkt., 75 seeds, 8 cts.; oz., 25 cts.

DAINTY SPENCER—The stems are very long and usually carry four fine large waved flowers each. It is a most beautiful pink-edged variety; the ground color is pure white, with a very distinct margin of rose-pink. Pkt., 75 seeds, 8 cts.; oz., 20 cts.

MRS. RUTZAHN—Buff or apricot ground, flushed and suffused with delicate pink, deepening toward the edges of the standard and wings. The flowers are of the largest size—thoroughly crimped and waved. The standard is broad and deep. The long stems seldom carry less than three flowers, while many bear four flowers to a spray. Pkt., 50 seeds, 8 cts.; oz., 25 cts.

HELEN LEWIS—The orange-rose wings roll and fold; the standard is reflexed, showing the distinctly fluted effect, and is of an intense rich crimson-orange. The blooms are truly a gigantic size—the ruffled standard measuring two inches across. Pkt., 75 seeds, 8 cts.; oz., 25 cts.

MENIE CHRISTIE SPENCER—Both the large fluted standard and wavy wings are of the same color, a lovely ruby-rose with a slightly deeper shade in the standard. The grand large flowers present a most striking color effect, with a wonderful satiny sheen on the petals. Pkt., 75 seeds, 8 cts.; oz., 20 cts.

COUNTESS SPENCER. TRUE—The color is a soft rose-pink, which deepens at the outer edges and becomes still richer or more heavily suffused in cool weather. In size, form, and coloring, Countess Spencer is simply exquisite. The plant is a strong vigorous grower, and the large flowers are borne three and four upon long, stiff stems. Pkt., 75 seeds, 8 cts.; oz., 20 cts.

SPENCER HYBRIDS—Mixed colors. Pkt., 100 seeds, 5 cts.; oz., 15 cts.

NOTICE—ONE PACKAGE EACH OF THE 9 SPENCER VARIETIES FOR 60 CENTS

SWEET PEA.**GRANDIFLORA TYPE.**

- APPLE BLOSSOMS**—Bright, rosy pink standards, bluish wings. Pkt., 100 seeds 4 cts.; oz., 10 cts.
- AMERICA**—Heavily striped with bright blood red on white ground. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- ADMIRATION**—A grand, large flower of beautiful form, self-colored in delicate shade of rose lavender; a free bloomer. Pkt., 100 seeds, 4c.; oz., 10c.
- BLANCHE FERRY**—Beautiful combination of pink and white, very fragrant. Pk., 100 seeds, 4c.; oz., 10c.
- COUNTESS OF RADNOR.** Standard light mauve, fading into a soft lavender; wings a lighter shade. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- COQUETTE**—Deep primrose shaded fawn. Pkt., 100 seeds, 4c.; oz., 10c.
- COUNTESS OF POWIS**—A glowing orange, suffused with light purple; very novel. Pkt., 100 seeds, 4c.; oz., 10c.
- DOROTHY ECKFORD**—The finest pure white yet produced, bearing three blossoms on a stem. Pk., 100 seeds, 4c.; oz., 10c.
- JANET SCOTT**—Rich pink considerably deeper than Katherine Tracy. Pk. 100 seeds, 4c.; oz., 10 cts.
- OTHELLO**—Deep maroon; an improvement on Black Knight. Pk., 100 seeds 4 cts.; oz., 10 cts.
- SALOPIAN**—Burpee's Sunproof. Flowers of large size, beautifully rich, deep glowing crimson, tinged with orange scarlet. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- MRS. JOS. CHAMBERLAIN**—One of the largest and handsomest of Eckford's novelties. The color is very effective, the whole flower having a white ground which is heavily striped with rose. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- MAID OF HONOR**—Flowers beautifully shaded light blue on white ground, edged with narrow, deep rich violet. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- MISS WILLMOTT**—Richest orange-pink flowers, measure 1 1/2 inches across, and are borne on long, stiff stems, 12 to 16 inches long. Pkt., 100 seeds, 4c.; oz., 10c.
- MRS. DUGDALE**—One of the largest flowered of all Sweet Peas. Light carnation-rose, with faint markings of primrose. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- KING EDWARD VII**—The best red Sweet Pea up to date. An improvement on Firefly. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- LADY GRISEL HAMILTON**—Light lavender, with azure blue wings; very dainty Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- NAVY BLUE**—A most distinct and striking color in Sweet Peas. The general effect is of a rich deep, true blue, though on close examination the shades in the standards is a deep lavender-purple, suffused throughout with a faint tint of claret or wine-red, while the wings are a rich violet purple. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- LADY NINA BALFOUR**—Large, expanded form with flowers beautifully hooded; both standards and wings are well rounded and broadly spreading. Coloring a pale lavender or lilac, free from any reddish tint, and when gathered in bunches gives the effect of mouse tint. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- LOVELY**—Standard and wings both deep pink shading to very light pink at edges. Large size, hooded form. Very vigorous grower, usually four blossoms to the stem. It is a very effective variety. Pkt., 100 seeds, 4 cts.; oz., 10 cts.
- JESSIE CUTHBERTSON**—Creamy white, striped dark rose. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

SWEET PEAS—CONTINUED.

PRINCE OF WALES—A bright, self-colored, deep rose flower of grand size and beautifully hooded form; frequently four on a stem. A greatly improved Her Majesty; one of Eckford's finest. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

TRIUMPH—Flowers of grand, large size and most beautiful coloring. Standard stiffly erect, broadly expanded; color white, suffused with salmon-pink, tinted with carmine at the base; wings widely spread, delicately veined with rose carmine, shading to deep rose in the center. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

THE HON. MRS. E. KENYON—A beautiful shade of light primrose yellow. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

DUKE OF WESTMINSTER—Standard clear purple. Wings purple with tint of violet. Large size, hooded form. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

SCARLET GEM—The color is almost dazzling scarlet, beautiful, bright and clear; a color much to be desired, both for home table decoration and for exhibition. It also shows well in artificial light, which is an immense advantage. It is strong in growth, with sturdy stems, and wonderfully free flowering. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

NEW DOUBLE SWEET PEA—Double Sweet Peas are of incomparable beauty. The plants are of extremely robust growth, producing a lavish profusion of richly fragrant flowers. Flowers are extra large, frequently measuring over two inches across. They will not all come double, but if the plants are growing strong and luxuriant they usually produce 20 to 40 per cent of double blossoms. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

SWEET PEAS, Best New Mixed—Owing to a special demand for all the new and finer varieties, I have selected all the larger flowering and most distinct sorts. This I call my Best Mixed, and I can particularly recommend it as extra choice and fine. Pkt., 100 seeds, 4 cts.; oz., 10 cts.; ¼ lb., 25 cts.; 1 lb., 90 cts.

SWEET PEAS, Fine Mixed—This strain, although not embracing the new seedlings, contains a beautiful assortment of the famous Eckford Sweet Peas. Pkt., 100 seeds, 4 cts.; oz., 8 cts.; ¼ lb., 20 cts.; 1 lb., 65 cts.

NEW DWARF PINK CUPID SWEET PEA—Bears generally three and sometimes four flowers to a stem. The flowers are identical with the tall growing *Blanche Ferry*, and are fully equal in size. The standard is a bright rose pink, while the wings are pure white and light pink. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

NEW DWARF WHITE CUPID SWEET PEA—Grows but 5 inches high and blooms so freely for months that it appears a perfect mass of white—the leaves being quite hidden. The flowers, of fine form and large size, are of the most perfect white; and the plants remain in full bloom two months longer than any other Sweet Pea. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

CUPID SWEET PEA, Mixed Colors—100 seeds, 4 cts.; oz., 10 cts.

ONE PACKET EACH OF THE ENTIRE COLLECTION OF GRANDIFLORA SWEET PEAS, 32 PKTS., for 90 CTS., INCLUDING THE SPENCER TYPES, \$1.50. ANY 3, 4c PKTS., for 10 CENTS, AND ANY 4, 10c ozs., FOR 25 CENTS.

NASTURTIUMS, DWARF.

GOLDEN QUEEN—Golden-yellow flowers on golden foliage. Pkt., 40 seeds, 5 cts.; oz., 10 cts.

GOLDEN KING—Rich glowing orange-yellow. Dark purplish foliage. Pkt., 40 seeds, 5 cts.; oz., 10 cts.

CRYSTAL PALACE GEM—Rich sulphur yellow, spotted with carmine. Pkt., 40 seeds, 5 cts.; oz., 10 cts.

AURORA—The ground color is a chrome-yellow, the upper petals being of a somewhat lighter tint, while the two lower petals are spotted and veined with purplish-carmine. Pkt., 40 seeds, 5 cts.; oz., 10 cts.

EMPRESS OF INDIA—The leaves are of a dark purplish blue color, making a suitable background for the brilliant crimson-scarlet flower. Pkt., 40 seeds, 5 cts.; oz., 10 cts.

LADY BIRD—The ground color of the flower is rich golden-yellow, each petal barred with a broad vein of bright ruby crimson. Pkt., 40 seeds, 5 cts.; oz., 10 cts.

SPOTTED KING—Rich orange spotted with maroon. Pkt., 40 seeds, 5c.; oz., 10c.

CHAMELEON—The flowers of this new Tom Thumb Nasturtium are in color crimson, gold and bronze, bordered and flamed, changing in hue almost daily, hence named "Chameleon." Pkt., 40 seeds, 5 cts.; oz., 15 cts.

DWARF NASTURTIUMS.

FINEST MIXED—The best ever produced and not surpassed for gorgeousness of colors and brilliancy of effect, embracing every known good sort. In Dwarf Nasturtiums I consider my special mixed the best that money can buy. Pkt., 40 seeds, 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.

TALL NASTURTIUMS.

JUPITER—Strong running growth and large, rich golden yellow flowers. Pkt., 40 seeds, 5 cts.; oz., 10 cts.

BRIGHT SCARLET. Pkt., 40 seeds, 5 cts.; oz., 10 cts.

PRINCE HENRY—Bright mottled scarlet. Pkt., 40 seeds, 5 cts.; oz., 10 cts.

LOBB'S NASTURTIUMS.

Both foliage and flowers of this type are smaller than those of the common Tall Nasturtiums, but the wonderful profusion of bloom and intense brilliancy of colors make it particularly desirable.

KING OF THE BLACKS—Rich foliage with flowers of a dark garnet-red. Pkt., 40 seeds, 5 cts.; oz., 15 cts.

LUCIFER—Both flower and foliage are of a rich dark coloring, the flowers being a deep rich velvety crimson. Pkt., 40 seeds, 5 cts.; oz., 15 cts.

NEW CLIMBING NASTURTIUMS.

MADAM GUNTHER'S HYBRIDS—Flowers of a richness and variety of coloring not to be found in any of the different classes of Nasturtiums. Colors in these new hybrids include various shades of rose, salmon, bright red, pale yellow, etc., either self colored or spotted, mottled, striped and margined. Pkt., 40 seeds, 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.

FINEST MIXED—I also offer a special mixture of the Tall or Climbing Nasturtiums made up on the same basis as the Dwarf Variety, finest mixed, from the best named and brightest colors only. Pkt., 40 seeds, 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.

NOTICE—Any three 5c packets of Nasturtiums for 12c, the entire collection of Dwarfs, 9 pkts., for 30c. The 7 pkts. of Tall for 20c, or the entire collection of both Tall and Dwarf for 45c postpaid.

PANSIES.

ROYAL SHOW PANSIES.

This is a mixture especially prepared by myself from separate strains and colors of all the largest flowering and finest varieties that can be secured in Europe, and is unsurpassed in beauty color and markings. Pkt., 150 seeds, 10 cts.

PANSY, "GIANT MADAM PERRET."

This pansy is especially distinguished from other Pansies by the plant being full and spreading, with very broad and extremely dark green leaves. The straight and stiff stems it possesses cause the flowers to stand out well from the foliage. The color of the blossoms ranges through all the shades of red, from a pink to a fine, deep purple, with an intermediate bright red, edged with white. The face of the flower in some cases is regular in color, while in others it is lined and striped. Size of flowers, 3 to $3\frac{1}{2}$ inches in diameter. Pkt., 150 seeds, 10 cts.

GIANT WHITE SPOTTED PANSY

The flowers are very large, pure white with a violet blotch on the three lower petals, of good form and substance. Pkt., 150 seeds, 5 cts.

GIANT YELLOW PRINCE PANSY

The color is pure golden yellow, shaded canary, sometimes with the three lower petals marked with purplish or red blotches and hair lines. Pkt., 150 seeds, 5 cts.

BLACK PRINCE PANSY.

A distinct Pansy of sterling merit. The rich, glossy black has a peculiar soft velvety appearance; the magnificent, large flowers are of fine circular form and carried upright well above the foliage; plants are of very compact bushy habit. Pkt., 150 seeds, 5 cts.

PANSY.

EMPEROR FREDERICK. The first color is deep, velvety brown, shaded into a narrow band of deep, golden yellow, which borders each petal. Pkt., 150 seeds, 4 cts.

EMPEROR WILLIAM. Ultramarine blue with violet eye. Pkt., 150 seeds, 4 cts.

NEW IMPERIAL GERMAN. This mixture embraces seed of over fifty colors and markings. Pkt., 150 seeds, 4 cts.

PANSY

PRESIDENT CARNOT.

Flowers of great size and rounded form. The center of each of the large, rounded petals is heavily blotched with a soft, rich shade of violet purple; the edges distinctly outlined with a snow-white band. In the center of the lower petals the color deepens to a velvety brown tint, contrasting richly with the yellow of the small distinct eye.

Pkt., 150 seeds, 5 cts.

"MASTERPIECE" OR RUFFLED PANSY.

This strain comes nearer to "Double Pansy" than anything else introduced under the name. The number of petals is the same as that in the other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. Pkt., 150 seeds, 10 cts.

NEW GIANT TRIMARDEAU PANSY—Remarkable for extra large size of the flowers. Pkt., 150 seeds, 4 cts.

NEW RED MIXED PANSY—The most brilliant Pansy mixture ever offered; made up from a collection of all the best red and fiery shades. Pkt., 150 seeds, 4c.

FIRE KING PANSY—Comes almost absolutely true, scarcely a plant bearing flowers at variance from the type, which is very distinct and striking. The lower petals each have a large blotch of deep brown-red or magenta, margined with yellow, while the upper petals are of a bright reddish-brown. Pkt., 150 seeds, 4 cts.

SNOW QUEEN PANSY—Pure satiny white, with yellow dot in center of flower, sometimes marked near center with faint blue or purple lines. Pkt., 150 seeds, 4 cts.

PEACOCK PANSY—A beautiful variety of ultramarine blue in the upper petals of the flower, edged with a thin white line, within which is a space of purplish crimson, passing into a rich central blotch of deep blue, shading to black. Named "Peacock" because the blending colors resemble those of peacock feathers. Pkt., 150 seeds, 4 cts.

SWEET-SCENTED PANSIES—The perfume of the violet, the beauty of the pansy. This class is the result of crossing the Pansy with the Sweet Violet. The resulting hybrids, in addition to retaining the delightful Violet perfume, produce the most beautiful Pansy-like blossoms, 2 to 2½ inches across, of great substance and of an endless variety of colors. Mixed colors. Pkt., 150 seeds, 4 cts.

GOOD MIXED—Fine for bedding; many rich colors. Pkt., 300 seeds, 3 cts.

NOTICE—ONE PACKET EACH OF THE 17 VARIETIES FOR 70 CTS.

VEGETABLE SEEDS.

ASPARAGUS, Columbian Mammoth White—This large-stalked strain produces white stalks above the surface, which are as fine flavored as the best green-stalked. Pkt., 3 cts.; oz., 10 cts.

BET, Detroit Dark Red—Form Globular or ovoid; smooth roots, with small tops; skin blood-red; flesh dark red, zoned with a lighter shade, tender and sweet. Pkt., 3 cts.; oz., 10 cts.

BET, Crimson Globe—Skin smooth and form regular. The flesh is a deep purplish crimson, sweet and tender. The foliage is small, of a rich bronze-purple. Pkt., 3 cts.; oz., 10 cts.

BET, SWISS CHARD, or "Spinach Beet," Large-Ribbed White—This variety does not make edible roots like the regular garden beets, but is grown for the broad white-leaf stalks, which are bunched and cooked in the same manner as asparagus, and make a delicious summer vegetable. The young leaves may be gathered also and cooked like spinach. Pkt., 3 cts.; oz., 10 cts.

BRUSSELS SPROUTS, Danish Prize—The plants are of strong, robust growth. The stalks are large, thick, and close-jointed, so that the sprouts set thickly on the stalk. The sprouts develop for nearly the entire height of the stalk at about the same time,—consequently a very large crop can be gathered. Even the sprouts formed at the base of the stalk are tightly folded; they are quite as fine and solid as those higher up. Pkt., 5 cts.; oz., 35 cts.

BEAN, Giant Stringless Green-Pod Valentine—The plants are of strong growth; pods slightly curved, very meaty; being broadly rounded and saddle-backed; brittle and stringless at all stages. Pkt., 8 cts.; pt., 30 cts.; qt., 45 cts.

BEANS, Davis' White Wax—Immensely productive, bearing large, handsome straight pods six inches in length. The pods are, however, tough and with decided strings. The dry seed being white, is desirable for winter market as a shelled bean. Pkt., 8 cts.; pt., 25 cts.; qt., 45 cts.

BEANS, Prolific Dwarf Black Wax—Dwarf bush grown and very prolific. Pods four to five inches in length, usually curved, quite round; meaty; brittle and stringless; deep golden yellow, of excellent flavor. Pkt., 8 cts.; pt., 25 cts.; qt., 45 cts.

BEAN, Improved Golden Wax—Moderately early, of vigorous, bushy growth, rust-proof. A reliable heavy cropper, whether sown in spring, summer or early fall. Pods long, thick and solid, absolutely stringless, of golden yellow color. Pkt., 8 cts.; pt., 25 cts.; qt., 45 cts.

BEAN, Burpee's Bush Lima—Burpee's Bush Lima comes absolutely true from seed. The bushes grow 18 to 20 inches high, of stout growth and always erect, yet branching so vigorously that each plant develops into a magnificent circular bush from two to three feet in diameter. It is an immense yielder, the handsome large pods being well filled with very large beans, identical in size and luscious flavor with the well-known large Pole Limas. Pkt., 8 cts.; pt., 25 cts.; qt., 45 cts.

BEANS, Kentucky Wonder Pole Bean—The pods, seven to nine inches long, are so fleshy that they are greater in width than breadth, being deeply creased or "saddle-backed." They are solidly meaty, stringless when young, and of finest quality. If pods are gathered as they mature, the vines will continue to bear to the end of the season. Pkt., 8 cts.; pt., 30 cts.; qt., 45 cts.

CABBAGE, Early Summer—It makes large, solid, round flattened, compact heads, of excellent quality. It is particularly true in the color of the plant, which has a peculiar bluish tinge. Pkt., 3 cts.; oz., 20 cts.

CABBAGE, Hollander or Dutch Winter. The best Cabbage for late spring sales and for shipping. This has become known as the most reliable Cabbage for the shipping trade, and has been almost universally used in districts famous for Cabbage growing. The heads are of medium size, averaging about 8 lbs. and are very solid, and in their fine white color entirely distinct from other kinds. While the quality is good they are uniformly excellent keepers, the heads being often just as solid and perfect when taken out in the spring as when put away in the fall. Pkt., 5 cts.; oz., 30 cts.

CABBAGE, Mammoth Rock Red—The best large Red Cabbage. A sure header, of good red color to the center. Pkt., 3 cts.; oz., 25 cts.

CUCUMBER, Extra Early White Spine—This is a special strain of the popular White Spine Cucumber, which is most desirable for its extreme earliness. Pkt., 3 cts.; oz., 10 cts.

CUCUMBER, London Long Green—This is an old-time popular garden favorite. Our carefully selected strain under favorable conditions, produces fruits averaging 10 to 12 inches in length. Skin a deep rich green; flesh solid, crisp and of excellent quality. This extra selected strain of the original type can be depended upon to produce the true long dark-green fruits—excellent alike for slicing or pickling. Pkt., 3 cts.; oz., 10 cts.

CUCUMBER, Fordhook Pickling—This is one of the best and most prolific for producing pickles of medium size. The vines are extremely vigorous and healthy, yielding a large number of fruits if kept gathered at the proper stage. Skin extremely thin, tender, and free from toughness when pickled. If allowed to grow to full size, fruits are of excellent table quality, but where the largest quantity of pickles is desired fruits should be gathered while small. Pkt., 3 cts.; oz., 10c.

CARROT, Chantenay, or Model—A very popular variety for general purposes; 5 to 6 inches long; very stump-rooted; about 3 inches thick at shoulder; tapering slightly; bright orange scarlet. Pkt., 3 cts.; oz., 10 cts.

CARROT, Danver's Half-Long—The best variety for general purposes and the most largely used, not only for stock raising, but for table use as well. The perfect type is about 8 inches long and about 2½ inches wide at the shoulder, tapering to a sort of half-point at the bottom. Color is a bright, orange-scarlet. It is a very heavy cropper. Pkt., 3 cts.; oz., 10 cts.

CRESS, Fine Curled. (Pepper Grass)—Quick growing; leaves finely cut and feathery, like a good parsley; growth dwarf and compact; ornamental, crisp and pungent; very refreshing. Pkt., 3 cts.; oz., 10 cts.

CAULIFLOWER, Early Snowball—This is a popular extra early strain of dwarf compact growth. Under favorable circumstances nearly every plant will make a fine solid head of good size. It is valuable for both early and late. Pkt., 10 cts.; ½ oz., \$1.00.

CELERY, Golden Self-Blanching. The best of all early "self-blanching" varieties—It is of dwarf compact habit, with thick, solid, heavily ribbed stalks which blanch easily to a clear waxen yellow. When grown in rich moist soil the stalks are numerous, each plant being fully as thick through as the largest of the tall late sorts, and with a large solid heart of beautiful golden-yellow stalks and leaves. Pkt., 5 cts.; oz., 45 cts.

CELERY, Dwarf Golden Heart—A fine long keeping dwarf celery. The heart is large, surrounded by a shapely solid stalk. After storing the heart blanches a beautiful golden, is unsurpassed in quality and is so large that little trimming is required for market. In many celery growing sections this variety is planted almost exclusively. Pkt., 3 cts.; oz., 15 cts.

CORN, Golden Bantam—Of extreme hardness, can be planted earlier than any other true sweet corn, and will then produce the earliest supply of ears for the table. The ears are about six inches in length, completely filled with eight rows of golden-yellow grains, extending to the rounded tip. The flavor is exceptionally rich and sugary. Pkt., 8 cts.; pt., 25 cts.; qt., 40 cts.

CORN, Country Gentleman—This late or main-crop variety is the result of a cross of the Ne Plus Ultra with the Stowell's Evergreen, producing a larger ear than the former, but retaining its productiveness, similar superb quality, and irregular "shoe-peg" arrangement of the crowded, slender, deep grains. Pkt., 8 cts.; pt., 25 cts.; qt., 40 cts.

CORN, Stowell's Evergreen—The best and most popular of all Sweet Corn varieties. Its reputation is based largely on its productiveness and large, handsome ears with fine flavored deep kernels, very white in color. Pkt., 8 cts.; pt., 25 cts.; qt., 40 cts.

CORN, Peep O'Day—One of the earliest of Sweet Corns. Grows about 3½ feet high. Bears nearly always two ears on the stalks. Kernels of good white color. Pkt., 8 cts.; pt., 25 cts.; qt., 40 cts.

EGG PLANT, Improved New York, Large Purple—This is the very best type of this standard variety. Absolutely spineless; the plants grow low, stocky and branch-

- ing; early and almost continuous bearer. The fruits are very large, smooth and have a rich satiny purple color. Pkt., 5 cts.; $\frac{1}{2}$ oz., 20 cts.; oz., 30 cts.
- EGG PLANT, Black Beauty**—An Egg Plant from ten to twelve days earlier than New York Spineless. The fruits are broad, thick, very attractive in form and of good flavor. Its rich, lustrous, purple black color adds to its attractiveness. Pkt., 5 cts.; oz., 35 cts.
- EGG PLANT, Pearl White**—Pure creamy white, slight shading of light green near stem; good quality. Pkt., 3 cts.; oz., 35 cts.
- ENDIVE**—No vegetable garden is complete without this delightful Autumn and Winter Salad. Sow the seed from the middle of June until the end of August.
- WHITE CURLED**—Very crisp and tender. Pkt., 5 cts.; oz., 15 cts.
- KOHL-RABI**—Kohl-rabi is grown for its turnip-shaped bulb, which is formed above ground. The bulb should be used while young and tender. Set plants eight inches apart.
- EARLY WHITE VIENNA**—The best for table use. Pkt., 5 cts.; oz., 25 cts.
- LETTUCE, Hanson**—A fine, large-headed variety. Leaves curled on the edges; light yellowish green in color. The head is crisp and brittle, and flavor excellent. Is the very best garden variety in existence, and much the finest variety of its class. Pkt., 3 cts.; oz., 15 cts.
- LETTUCE, Early Curled Simpson**—A loose-bunching sort, forming no definite head. Is crisp, and tender, light green in color. Is very hardy and easy to grow. Pkt., 3 cts.; oz., 10 cts.
- MANGELS OR STOCK BEETS, Mammoth Long Red**—The best long red mangel; very productive, often yielding 50 tons to the acre. It grows well above the ground and is easily harvested. oz., 10 cts.; $\frac{1}{4}$ lb., 20 cts.; 1 lb., 60 cts.
- MUSKMELON, Osage**—A salmon-fleshed variety. Skin deep green, slightly netted and ribbed. Pkt., 3 cts.; oz., 10 cts.
- MUSKMELON, Extra Early Hackensack**—An early variety, with almost globular fruit, which is heavily ribbed and heavily netted. Flesh thick and light green. Pkt., 3 cts.; oz., 15 cts.
- ONION, White Globe**—A very handsome, silvery-white, ball-shaped Onion of large size. Flesh firm, fine grained, of mild flavor and an excellent keeper. Its even, regular size and globular form, combined with the clear, silvery whiteness of the skin, make it one of the handsomest onions grown. Owing to its large size it is late in ripening. Pkt., 5 cts.; oz., 35 cts.
- ONION, Large Red Globe**—Perfectly globe-shaped, of large size; the outer skin is of an intensely deep dark blood red. They are splendid keepers. Our strain is extra fine, absolutely unsurpassed. Pkt., 3 cts.; oz., 20 cts.
- PARSNIPS, Long Smooth or Hollow Crown**—Tender, sugary, and considered the best for general cultivation. Parsnips are improved by remaining exposed to the frost. Pkt., 3 cts.; oz., 10 cts.
- PARSLEY, Double Curled**—Fine, dwarf, crimped leaves. Pkt., 3 cts.; oz., 10 cts.
- PEPPER, Ruby King**—A popular variety of the Bell or Bull Nose type. The fruit is large, glossy red, and the flavor is mild and sweet; a desirable variety for pickling and stuffing. Pkt., 3 cts.; oz., 25 cts.
- PEPPER, Red Japan Cluster**—This variety is very productive. The fruits are small, thin and very hot. Pkt., 3 cts.; oz., 25 cts.
- PEPPER, Sweet Mountain**—It is a strong grower, very productive. The peppers when young are of a bright green color, without any shade of purple; when ripe they are of a beautiful red; the flesh is thick, sweet and mild. They often grow six inches long by four inches through. Pkt., 3 cts.; oz., 25 cts.
- PEAS, Telephone**—Immensely productive and of the finest quality. Vine very strong, averaging 18 to 20 pods per stalk. The pods are of large size, containing 6 to 7 peas each, which are of a pale green color, and are closely packed in the pod, and of a most delicious flavor. A valuable feature of this variety is that it continues in bearing for an extremely long time; height $3\frac{1}{2}$ feet. Pkt., 8 cts.; pt., 30 cts.; qt., 50 cts.
- PEAS, American Wonder**—Of extremely dwarf growth, only 8 to 10 inches high, this is nearly as early as Alaska. The pods are filled with luscious, large wrinkled peas of first-class quality. Pkt., 8 cts.; pt., 28 cts.; qt., 45 cts.
- PUMPKIN, Small Sugar**—A handsome, prolific variety; fruits of all sizes; averaging about 10 inches in diameter; flattened or slightly ribbed; of excellent keeping qualities; skin deep orange yellow, flesh sweet. Pkt., 3 cts.; oz., 10 cts.
- RHUBARB, Mammoth**—Vigorous and productive, stalks numerous, the larger ones being 15 inches long and fully $1\frac{1}{2}$ inches wide. It is the first article of the season from the garden, and no garden should be without it. Pkt., 3 cts.; oz., 10 cts.
- RADISH, White "Icicle"**—The finest and longest of the very early pure white varieties—Planted in spring the radishes are ready for use in 20 to 25 days. This radish is not only crisp and tender when young, but retains these qualities until the roots attain large size, so that it will remain in fine condition longer than any other first-early variety. It is excellently adapted for forcing purposes or successive sowing in the open ground. Pkt., 3 cts.; oz., 10 cts.

RADISH, Early Scarlet Turnip—A valuable variety for forcing or out-door culture. is a small turnip-shaped variety, and in color entirely crimson. Pkt., 3c.; oz., 10c.

RADISH, French Breakfast—Color, bright earmine, with clear white on the lower portion; very tender and mild. Pkt., 3 cts.; oz., 10 cts.

SALSIFY OR VEGETABLE OYSTER, Long White—The well-known standard. Pkt., 3 cts.; oz., 10 cts.

Salsify is one of the most delicious and nutritious of vegetables, and should be more generally cultivated for use in winter when the supply of real good vegetables is so limited. It has a grassy top and a long, white, tapering root, nearly resembling a slim parsnip. When properly cooked it resembles closely the taste and flavor of the oyster and is a good substitute for it; very wholesome and nutritious. The roots are either hollowed, or mashed and made into delicious fritters.

SPINACH, Victoria—The foliage is heavy, the broad dark green leaves being of the true Savoy appearance, and of the finest quality. It remains in prime condition from two to three weeks after all other varieties have run to seed. Pkt., 3 cts.; oz., 10 cts.

SQUASH, Hubbard—The most popular and widely used of the winter squashes. Fruit is oblong and pointed, heavily warted, dark green in color, with orange-colored flesh. Is remarkable for its keeping qualities. Pkt., 3 cts.; oz., 10 cts.

SQUASH, Early White Bush Scalloped—The plants are of true bush growth, producing fruit ready for use very early in the summer. Pkt., 3 cts.; oz., 10 cts.

SQUASH, Golden Summer Crookneck—Plants of true bush growth, very early fruiting and productive. The squashes are of the crookneck type, rich golden yellow, thickly warted. Pkt., 3 cts.; oz., 10 cts.

TOMATO, Ponderosa—This is the largest-fruited Tomato and is of fine quality for slicing. The vines are of strong growth; fruits largely oblong in form, deep through, and generally ridged or ribbed; deep purple in color. They are solidly fleshy, with small seed cells; of fine sweet flavor. Planted in good soil, pruned to a single stem, fruits frequently attain a weight of one pound or more. Pkt., 3 cts.; oz., 15 cts.

TOMATO, Chalk's Early Jewel—The largest and smoothest of the extra early red tomatoes. Somewhat later, a week or ten days, than Earliana, the fruits are larger and smoother. The vines grow very compactly, are immensely productive and better still, bear continuously throughout the season, in which respect it far surpasses Earliana. Pkt., 3 cts.; oz., 15 cts.

RUTA BAGAS, or "Swedish" Turnips—These Swedish or Russian Turnips require a longer season in which to grow than do the turnips, and with us the seed should be sown about the first to the middle of July to make large bulbs. The flesh is more solid and richer in flavor than that of the turnips, and they will keep in fine condition more readily during the winter months. Pkt., 3 cts.; oz., 10 cts.

TURNIP, Golden Ball, or Orange Jelly—Very tender and of fine flavor. Pkt., 3 cts.; oz., 10 cts.

TURNIP, White, Early, Flat Dutch—Strap-leaved. A medium sized, flat variety; clear white, early and of fine flavor. A fine table variety. Pkt., 3 cts.; oz., 10 cts.

WATERMELON, Fordhook Early—Without a rival. This is the earliest large-fruited melon in cultivation. These fruits are of good size, rather short and blocky in form, with large diameter. Skin dark green, occasionally with faint strips of lighter green. Flesh bright red, crisp, sweet and of splendid quality. Rind quite thin, but skin tough. Pkt., 3 cts.; oz., 10 cts.

WATERMELON, Sweet Heart—Large heavy fruits of oval or round form; skin very pale green, with distinct netted lines of a slightly darker shade. The large handsome fruits bear shipping well. The solid flesh is a deep rich red, crisp and melting. Pkt., 3 cts.; oz., 10 cts.

This list of vegetable seeds which I am offering is the best to be obtained, while not containing the novelties of the larger houses, it is true and tried, the very limited space prevents me from illustrating the different varieties as I should like but the selection I have made is the choicest, just such as I grow in my own garden, and know to be good, if you have never grown your own vegetables try a few this year, the packets are full size, and offered at very much reduced price.

HERBS.

Dill Pkt. 5 cts.
Lavender Pkt. 5 cts.
Savory, Summer Pkt. 5 cts.
Sweet Marjoram, American: Pkt. 5 cts.

Thyme, Broad-leaved English Pkt. 5 cts.
Sage Pkt. 5 cts.
Pennyroyal Pkt. 5 cts.
Catnip or Catmint Pkt. 5 cts.

This collection of Herbs, one packet of each, 30 cents.

ABUTILON.

FLOWERING MAPLE—A very popular perennial shrub, with bell-shaped drooping flowers, well adapted to house culture, easily raised from seed, and if sown before April, under glass, plants will bloom the first season. For winter flowering, plant in September. Finest mixed.

Pkt., 30 seeds, 4 cts.

ACROLINIUM.

EVERLASTING—One of the most beautiful and valuable of the everlasting flowers, called by some "Pink Daisies"; very effective in borders during the blooming seasons, and possessing the additional advantage of being available for winter decoration, for which purpose it is now extensively grown. The densely double flowers are faultless, both in shape and color. Pkt., 100 seeds, 3 cts.

AGERATUM, IMPERIAL DARK BLUE.

A plant that blooms continuously all summer in the garden and makes a pleasing contrast of color with more brilliant varieties. I offer seed of the new Imperial Dark Blue as the best and most showy. Pkt., 300 seeds, 4 cts.

AGERATUM.

DWARF WHITE—Very dwarf and compact; pure white. Pkt., 300 seeds, 4 cts.

ACHILLEA.

THE PEARL—One of the best hardy white perennials in the list. Grows about two feet high, and from spring till frost is covered with heads of pure white double flowers. A grand plant for cemetery decoration. Easily grown from seed, flowering the first season if sown early. Pkt., 300 seeds, 5 cts.

ARABIS ALPINA.

The pure white flowers grow so uniformly and thickly that it gives the effect of a sheet of snow. Plants perfectly hardy. The earliest, prettiest, spring flower. The spreading tufts are densely clothed with neat, lively green leaves and covered with pure white flowers; conspicuous at a great distance, especially in large masses on rockeries or broad edgings for park roads, having the advantage of having the greatest drought during summer and always looking neat. Pkt., 400 seeds, 4 cts.

ARABIS ALPINA.

ALYSSUM.

LITTLE GEM—The plants are very dwarf. Each spreads so as to completely cover a circular space twelve to twenty inches in diameter. They soon become one mass of white remaining in full bloom from spring to fall—being densely studded with the beautiful miniature spikes of deliciously fragrant flowers. Pkt., 400 seeds, 5 ets.; oz., 30 ets.

SAXATILE COMPACTUM. Showy golden flowers, hardy perennials, blooms the first season; excellent for rock work. Pkt., 250 seeds, 5 ets.

SWEET—Its pure white, fragrant flowers are produced from early spring until killed by frost very useful in all kinds of bouquets.

Note—For a cemetery plant, nothing is more suitable than Sweet Alyssum—requiring but little care and attention and being a continuous bloomer throughout the summer. Pkt., 400 seeds, 3 ets.; oz., 25 ets.

The sample package of seed you sent me last year proved so very satisfactory that I wish to try more this year.

Miss Della Simpson,
Stanton, Va.

ANCHUSA CAPENSIS.

CAPE FORGET-ME-NOT. A hardy annual of more than ordinary beauty. It grows about two feet high branching freely and bearing a profusion of the most lovely flowers, similar in all respects to the Forget-me-not, though the blossoms are much larger and of finer color. It is always taken for a beautiful, large-flowered Forget-me-not, and for bouquets and cut flowers it is indeed superior to it. Its color is a deep, clear, brilliant blue with a pure white eye; blooms early and continues all summer. Pkt., 200 seeds, 4 ets.

I feel that it is my duty to compliment you on the quality of your seeds. Last summer I had the prettiest garden in our neighborhood and it was all from your seeds.

Everyone admired the rare beauty of my Asters and Sweet Peas.

Geo. W. Gibson,
Baltimore, Md.

ALYSSUM, LITTLE GEM.

ANGEL'S BREATH, OR GYSOPHILA.

An annual that should be in every garden, for it thrives everywhere, and furnishes the loveliest material for all kinds of bouquets. The tiny little flowers are borne in abundance on long, graceful, branching stems which lend a most graceful, light appearance to any bunch of flowers.

Pkt., 300 seeds, 4 cts.

AQUILEGIA, OR COLUMBINE.

Very handsome, ornamental, hardy perennial plants of easy cultivation and bearing in profusion large flowers of novel shape and in a great variety of colors. Double mixed.

Pkt., 300 seeds, 3 cts.

CRAB'S EYE VINE.

ABRUS PRECATORIUS—A most beautiful climber, either for pot culture or the open ground in summer; bears clusters of bright yellow flowers, followed by bunches of pods, which, when dry, burst open, disclosing brilliant red seeds with black eyes, used for making beads and ornaments, for which purpose they are exceedingly pretty. Pkt., 15 seeds, 5 cts.

Everyone should grow Angel's Breath to mix with all flowers for bouquets.

AMBROSIA.

A hardy annual with long spiral stems, bearing an abundance of small, round greenish-yellow buds and blossoms which are exceedingly fragrant. It is as desirable as the Rose Geranium as a plant with fragrant foliage, and for making up into bouquets and other floral work. Its long, beautiful, fringed spirals of lovely green are unsurpassed. It is one of the easiest plants to grow, and seed may be sown early in open ground.

Pkt., 400 seeds, 4 cts.

I wish to thank you for the Roses received last spring, and how grand they turned out to be. The Killarney Roses were the most beautiful I ever saw; most all bloomed fine. Have 65 Roses which I received from you.

Mrs. Frank Esmay,
Missoula, Mont.

ANTIRRHINUM.**TOM THUMB
SNAPDRAGON.**

Very dwarf, growing only eight inches high, thickly studded with beautiful spikes of gay colored flowers, orange, scarlet, rose-white, maroon, striped, etc. Pkt., 500 seeds, 3 cts.

NEW GIANT—Flowers double the size of the older sorts, more closely set on the stems, and colors more clear and brilliant. Plants very compact and bushy, growing about 12 inches high. All colors, mixed. Pkt., 400 seeds, 4c.

QUEEN OF THE NORTH. The finest and most beautiful of all the Snapdragons. The plants grow into handsome, regular bushes, 12 inches high, covered with large white flowers of a deliciously sweet perfume. Suitable for bedding or pot culture. Pkt., 400 seeds, 4 cts.

**NOTICE.**

Asparagus is very slow to germinate, requiring from 60 to 90 days, but once started is a very rapid grower. Seed should be soaked in warm water before planting.

ASPARAGUS.

SPRENGERI—Highly praised everywhere; handsomest seen drooping from a pot or basket. Sprays 4 to 6 feet long, of fresh, green, feathery foliage; useful for hoquets, wreaths or sprays, remaining perfect for weeks after cutting. Grows freely the whole year round; extremely valuable for all purposes. Flowers white, followed by red berries. Pkt., 15 seeds, 8 cts.

PLUMOSUS NANUS—This graceful climbing Asparagus has foliage finer than that of the most delicate fern, and will last for weeks after being cut. It is an excellent house plant, succeeding under almost any condition. Pkt., 10 seeds, 10 cts.

I have been your customer in a small way for many years and I wish to say your seeds have always given perfect satisfaction.

Mrs. J. R. Joung,
Mar. 28, 1913. Lexington, Ky.

**ASPARAGUS SPRENGERI.**

Bear in mind—August and September are the best months for starting your Perennials and a few of them are always an addition to your garden.

A SMALL LIST OF GOOD PERENNIAL SEEDS.

NOTICE—One packet each of these perennials for 80 cts.

BACHELOR'S BUTTON.

BACHELOR'S BUTTON.

DOUBLE—It has been so perfected that fully 80 per cent of the flowers are double and semi-double, and also increased in size and present many bright colors and distinct markings which hitherto been unknown in this old-fashioned favorite flower

Pkt., 75 seeds, 4 cts.

LADY SLIPPER.

DEFIANCE BALSAM—The most perfect in form and largest double-flowered Balsam yet developed and by careful growth and selection has attained a standard that will be found hard to improve. The mixture which I offer is composed, in nearly equal proportions, of eight colors; rose, rose-white spotted, pink, scarlet, white-tinted violet, white spotted, scarlet white spotted and purple each having been grown separately. Pkt., 75 seeds, 4 cts.

It seems like hearing from an old friend to read your letter and see your pictured face, in your seed catalogue, and I want to congratulate you upon your "Twenty Years of Success." I well remember receiving your "Floral Culture" and seeds in the first years of your business career, and owing to the good quality of your seeds, your success is assured.

Mrs. Edna M. Murray.

Feb. 24, 1913.

Big Timmer, Mont.

LADY SLIPPER.

BIRD OF PARADISE.

POINCIANA GILLESII—The color of the flower is a golden yellow, measuring $2\frac{1}{2}$ inches across, with shape as shown in illustration, and is produced in very large trusses. The most beautiful part of the flower is the large pistils which are spread out in fan-like form and are of bright crimson color. The foliage is also highly decorative, reminding one of a very delicate Acacia. If the seed is started early, it will produce blooms in great profusion the first year. Pkt., 15 seeds, 8 cts.

BEAN.

SCARLET RUNNER—A Favorite Old-fashioned Climber. One of the very few beans that are both ornamental and useful. It grows rapidly to a height of 10 to 12 feet, and is covered from July until heavy frost, with clusters of beautiful scarlet flowers. Pkt., 12 seeds, 5c.; pt., 26c.; qt., 30c.

I have grown your flower seeds and Early Tomato plants and found them to be splendid.

Mrs. A. W. Smith,
Medaryville, Ind.

**BIRD OF PARADISE, (POINCIANA GILLESII.)****BEGONIA.**

BEGONIA—Tuberous rooted, single mixed. Seed saved from finest colors. Pkt., 100 seeds, 10 cts.

BEGONIA—Tuberous rooted, double mixed, from the finest and best colors. Pkt., 100 seeds, 12 cts.

BEGONIA, VERNON.

One of the most satisfactory pot plants for the house, and a popular bedding plant for the garden or lawn. It blooms with the greatest profusion throughout the summer. Flowers a brilliant orange-carmine with bright yellow centers, and the foliage waxy and glossy. It is easily raised from seed, and comes absolutely true.

Pkt., 300 seeds, 5 cts.

BALSAM APPLE.

A beautiful climbing plant with apple-shaped fruit, which, if preserved in alcohol, makes a most useful liniment. Pkt., 25 seeds, 3 cts.

COLEUS.

One of the best known and most universally admired ornamental foliage plants, in an endless variety of colors and shadings, indispensable for ribbon and carpet bedding, or as single specimens. Coleus seed germinates easily. Pkt., 200 seeds, 5 cts.

**COLEUS.**

MARGUERITE CARNATION.

CARNATIONS.

PERENNIAL VARIETIES—Indispensable for both pot culture in the greenhouse and window garden, and open ground culture in summer; of innumerable colors and delicious perfume. The plants may be set in the open ground during the summer, where they will flower as profusely as when grown in pots in the house. Half hard perennials.

DOUBLE MIXED—Producing many double flowers of all shades and colors. Pkt., 100 seeds, 8 cts.

EXTRA FINE DOUBLE MIXED—Seeds saved from the finest and choicest German, French, Italian and English stocks. Pkt., 100 seeds, 10 cts.

GRENADIN SCARLET—Very early, habit dwarf and compact, brilliant double scarlet flowers. Pkt., 100 seeds, 10 cts.

GRENADIN WHITE—Double, early flowering, white. Pkt., 100 seeds, 10 cts.

CALENDULA.

DOUBLE YELLOW—Flowers extra large and very double, slightly imbricated, while those of the center are incurved like the petals of a Peony. Colors, bright golden yellow or orange. From seed sown in the open ground it comes into flower early. Pkt., 150 seeds, 3 cts.

CYCLAMEN, PERSICUM.

Well-known bulbous rooted plants, universal favorites as pot plants for winter and spring blooming, producing handsome red and white flowers, with beautiful variegated foliage, in different shades of green. Mixed. Pkt., 25 seeds, 5 cts.

Cyclamen seed should be sown from the middle of August to the end of September for best results.

MARGUERITE CARNATIONS.

A magnificent class of Carnations that will bloom in four months after sowing the seed. They are without exception the most abundant bloomers of all the "Pinks." The flowers are of brilliant colors, ranging through many beautiful shades of reds, pinks, whites, etc. It is a most valuable acquisition, as Carnation flowers can be had all summer and winter, if consecutive sowings are made.

MARGARET MIXED, All Colors. 150 seeds, 5 cts.

MARGARET WHITE, 100 seeds 10 cts.

MARGARET YELLOW, 100 seeds, 10 cts.

MARGARET PINK, 100 seeds, 10 cts.

MARGARET RED, 100 seeds, 10 cts.

The four separate colors (one packet of each), 30 cts.

COCKSCOMB.

QUEEN OF DWARFS—This is the best dwarf-growing Cockscomb; the plants grow only about eight inches high, are firmly set in the crown, with well balanced, large heads, ten to twelve inches across. They grow very uniformly and present an unusually solid effect in color, which is rich ruby red, of extreme brilliancy. Pkt., 200 seeds, 4 cts.

CENTROSEMA GRANDIFLORA.

A hardy perennial vine which will bloom in June or July from seed sown in April, and bears in the greatest profusion inverted, pea-shaped flowers from 1½ to 2½ inches in diameter, ranging in color from a rose-violet to a reddish purple, with a broad, feathered white marking through the center, while the large buds and backs of the flowers are pure white, making it appear as if one plant bore many different colored flowers at one time.

Pkt., 50 seeds, 4 cts.

CYPRESS VINE.

A most beautiful vine, with delicate, fern-like foliage and beautiful, star-shaped, rose, scarlet and white flowers. Seed very slow to start growth. All colors mixed. Pkt., 50 seeds, 4 cts.

CYCLAMEN

GIGANTEUM—Flowers of extraordinary size, and of great substance. The leaves are proportionately large and beautifully marked. Pkt., 25 seeds, 10 cts.

CANDYTUFT.

GIANT EMPRESS—A magnificent variety, with enormous flattened beads of large, pure white florets. Good stems. Pkt., 200 seeds, 4 cts.

HARDY PERENNIAL SEM-PERVIENS—A profuse blooming, white hardy perennial, coming in flower early in the spring. Much used for cemeteries, rockeries, etc. 1 foot Pkt., 200 seeds, 4 cts.

SNOW QUEEN—A valuable and distinct species of great beauty. It is an annual variety and grows very rapidly, quickly coming into bloom and remaining in full flower for about three months. It bears but little foliage, and the mass of white produced makes it useful for borders. Pkt., 300 seeds, 4 cts.

MIXED—All colors. Pkt., 400 seeds, 3 cts.

We have used your seeds before and always get extra good returns from them. Thanking you for the catalogue and wishing you continued success, I am, gratefully,

A. V. Brown,
"Crooked Lake Farm,"
Oconomowoc, Wis.

Mar., 1913.

CLEMATIS PANICULATA.

CLEMATIS PANICULATA.

JAPANESE VIRGIN'S BOWER PERENNIAL—This is one of the really good hardy climbers. The leaves are of a bright, glossy green, and when in bloom it astonishes with the quantity of flowers, the plant being completely hidden beneath a blanket of white, bawthorne-scented blossoms, a grand plant for piazzas, fences, in fact any position where a climber is wanted. It is just the thing for covering terraces and embankments; does equally well in sunshine or shade, and stands unrivaled as a plant for the cemetery. Soak the seed in warm water for twenty-four hours before sowing. Pkt., 50 seeds, 8 cts.

CLEMO PUNGENS, THE GIANT SPIDER PLANT.

A robust plant growing vigorously 4 to 5 feet high, unaffected by wind or weather, and flowering profusely and continuously for months. The flowers are very showy, bright rose color; growing freely from seed sown in the open ground, thrives luxuriantly, and blooms all summer, no matter how unfavorable the season may be. It is also one of the best money producing plants, and should be planted liberally by all bee-keepers. Pkt., 200 seeds, 3 cts.; oz., 25 cts.

CANARY BIRD FLOWER.

TROPAEOLUM CANARIENSIS—One of the most beautiful annual climbers, with bright green foliage, delicately cut and very ornamental. The flowers are bright golden yellow, bearing a fanciful resemblance to birds with extended wings. Succeeds best in a cool, slightly shaded situation; also does well as a pot or basket plant for the window or conservatory. Pkt., 30 seeds, 4 cts.

JAPANESE PLANT FOOD.

Has no equal for improving Palms, Rubber Plants and Ferns, producing new growth and renewing the green. 6 oz. package by mail, postpaid, 25 cts.; sufficient food for thirty plants, three months.

CROZY'S NEW DWARF CANNAS.

One of the most popular of bedding plants, while even single specimens are most attractive in the garden. They will bloom the first year from seed, if you soak them in boiling water over night; sow singly in small pots as soon as convenient and grow as rapidly as possible. The roots can be kept in the cellar over winter and each clump will give six to eight good roots for planting out the following spring. Pkt., 15 seeds, 5 cts.; oz., 25 cts.

CANNAS, TALL OLD TYPE.

A mixture of all the best tall growing varieties. Pkt., 15 seeds, 5c; oz., 25c

I like your seeds fine. I firmly believe, with proper care every seed will come. I had lovely Cannas and Dahllas from seed last year. They were the talk of the town. I have purchased seed from you for over twelve years and always expect to.

Mrs. J. U. Knox.
New Florence, Mo.

BARGAIN COLLECTIONS.

15 VARIETIES OF THE BEST AND MOST POPULAR
FLOWER SEEDS FOR 25 CENTS.

ALYSSUM, Little Gem; ASTER, Finest Mixed; CALLIOPSIS, Mixed; COBŒA SCANDENS; DIANTHUS, or CHINESE PINK, Finest Mixed; HELIOBRYSUM, Mixed; MIGNONETTE, Sweet; MARIGOLD, French Mixed; PANSY, Royal Show; PETUNIA HYBRIDA, Fine Mixed; PHLOX DRUMMONDII, Grandiflora Mixed; POPPY, the Shirley; SCHIZANTHUS, Butterfly Flower, Mixed; SWEET PEAS, Best Mixed; and VERBENA HYBRIDA, Fine Mixed.

THE ENTIRE COLLECTION ONE FULL-SIZE PACKAGE
EACH OF THE ABOVE 15
VARIETIES, MAILED TO ANY ADDRESS FOR 25 CENTS, OR FIVE
COLLECTIONS FOR \$1.00. THIS IS LESS THAN 2 CTS. PER PACK-
AGE AND THE COLLECTIONS WILL BE MAILED TO FIVE SEPARATE
ADDRESSES IF YOU SO WISH, FOR \$1.00.

CINERARIA, HYBRIDA.

they present a most novel and strikingly beautiful appearance. Branches cut and dried retain their rich and brilliant color, and make beautiful winter bouquets when used with dry grasses and leaves. The plant grows from $1\frac{1}{2}$ to 2 feet in height. Treated like a Tomato, it grows and fruits freely from seed the first season, yet the plants are perennial and may be wintered in the cellar or grown in pots as a window plant. Pkt., 100 seeds, 4 cts.

CANTERBURY BELL

CAMPANULA MEDIA—Calycanthemum, (Cup and Saucer Canterbury Bells.) This is unquestionably the finest type of this old-fashioned and much prized garden plant.

ROSE—Delicate rose pink.

Pkt., 200 seeds, 8 cts.

BLUE—A fine, clear shade.

Pkt., 200 seeds, 8 cts.

STRIPED—White striped blue.

Pkt., 200 seeds, 8 cts.

WHITE—Pure White.

Pkt., 200 seeds, 8 cts.

FINEST MIXED—All colors of the Cup and Saucer type.

Pkt., 400 seeds, 5 cts.

One packet each of the 4 colors of Cup and Saucer Canterbury Bells.

25 cts.

Your Pansies are the finest ever and I always have a very large bed. Mrs. Edith A. Grace, Whilmsville, Mass.

CINERARIA

HYBRIDA—One of the most popular of all green house plants, and what a splendid display they make when well grown. I know of no plant so easily grown as the Cineraria. The secret of growing well is to grow fast, never allowing them to receive a check, either from being pot bound, dryness of root, or attack of insects; the cooler they are kept the better. In colors they range from crimson, magenta, violet, purple and variegated. Large flowering mixed.

Pkt., 200 seeds, 10 cts.

CHINESE LANTERN PLANT

PHYSALIS FRANCHETTI

The plant produces numerous, large, inflated husks, much the shape of Chinese lanterns, at first a beautiful green color, changing to a yellowish hue and then to brightest scarlet, and as they hang suspended among the green foliage

CANTERBURY BELL.

The Pansies and Aster seed I bought of you last year were the most beautiful flowers I ever saw. If you could only have heard the many compliments we received for our beautiful flowers you would have been pleased and happy as I was.

Mrs. Chas.
St Shaw,
Ballard Vale,
Mass.

CHRYSANTHEMUM.

FRENCH MARGUERITES—Annual variety much grown for cut flowers. The plants grow twelve to eighteen inches high and produce on long stems beautiful large flowers of many bright colors. They flower all summer in the garden, and make elegant pot plants for winter flowering. Pkt., 200 seeds, 3c.

INODORUM PLENISSIMUM—Although a perennial, it flowers abundantly the first year from seed, each plant producing hundreds of beautiful, perfectly double, snow-white flowers unsurpassed for nosegays. It remains in bloom all summer, and is in all respects one of the handsomest and most valuable of flowers. Pkt., 200 seeds, 5 cts.

FANCY PERENNIAL—From the best incurved, Pompon, Japanese, Chinese and Anemone-flowered varieties. Seed sown in the hotbed in February or March, or even April, will give plants that bloom in August or September, and cannot fail, with proper care, to give magnificent flowers in a wonderful variety of colors and forms. Pkt., 200 seeds, 10 cts.

I had splendid success with your seeds last year

Thomas B. Holmes, Sr.,
Trenton, N. J.

COBAEA SCANDENS.

A beautiful, large, bell-shaped flower, green at first, but rapidly changing to a beautiful deep violet-blue. A well established plant, will run 30 to 40 feet a season. Pkt., 20 seeds, 5c.; ¼ oz., 15c.

COBAEA SCANDENS.

Notice ! ONE PACKET EACH OF THE ENTIRE COL-
 SECTION OF COSMOS, SIX PKTS., FOR
25c

NEW EARLY BLOOMING COSMOS, DAWN.

This beautiful new strain produces abundantly well-formed lovely flowers of large size; pure white, pink and crimson in color. It can be had in bloom from July to November and grows freely everywhere. Pkt., 100 seeds, 5 cts.

COSMOS, HYBRIDUS.

Seeds sown in April or May and transplanted to open ground will produce plants 5 or 6 feet high by September and from then until November will be covered with hundreds of blossoms, three inches across, resembling single Dahlias. All colors mixed. Pkt., 100 seeds, 5 cts.

COSMOS, WHITE PEARL.

Large pure white flowers; very valuable for florists. Pkt., 100 seeds, 5 cts.

COSMOS, PURE PINK.

Beautiful large flowers, of clear, delicate pink color. Pkt., 100 seeds, 5 cts.

COSMOS, CRIMSON.

Large, beautiful crimson flowers. Pkt., 100 seeds, 5 cts.

LADY LENOX.

The flowers are of extraordinary size, up to 6 inches in diameter; color shell-pink. The plants are of very vigorous growth. Pkt., 150 seeds, 8 cts.

CENTAUREA

IMPERIALIS—Centaurea Imperialis is of the easiest culture and flowers continually from early spring until fall. Flowers are double the size of Centaurea Marguerite, of various tints and colors, pure white, lilac, rose, purple and dark red, supported on long stems, which renders them very desirable for cut flowers and corsage bouquets. They have the same delicate odor and form as the Centaurea Marguerite. Mixed colors. Pkt., 75 seeds, 4 cts.

MARGUERITE—The most fragrant and longest keeping cut flower. The flowers are the size of a medium Carnation, freely produced on long stems, which renders them valuable for cutting; colors pure white, pale sulphur-yellow and lavender. The flowers are sweet-scented, and their lasting quality after being cut is remarkable. The plants grow about 18 inches high and are of the easiest culture; from spring-sown seeds they commence to flower in July and continue until late in the autumn. Pkt., 100 seeds, 4 cts.

SUAVEOLENS—Yellow Sweet Sultan Pkt., 75 seeds, 4 cts.

GYMNOCARPA—Dusty Miller. Foliage finely cut of silvery gray color, used for bedding. Pkt., 4 cts.

CENTAUREA MARGUERITE DOUBLE CALLIOPSIS.

NEW—A handsome double variety, flowers of a rich golden yellow, with wine-maroon spots. Pkt., 200 seeds, 3 cts.

CALLIOPSIS OR COREOPSIS SINGLE.

Very handsome and showy plants of the easiest culture, require no care and thrive in any garden. Produce flowers in nearly every shade of yellow, orange, crimson, red and brown. It is one of those flowers which will grow in any situation and always will be greatly admired. Mixed colors. Pkt., 300 seeds, 3 cts.

CALLIOPSIS, LANCEOLATA.

PERENNIAL—Graceful and profuse blooming plant, with large, striking flowers of a brilliant golden yellow. Remains in bloom all summer. Its long wiry stems fit it admirably for bouquet making. Its golden cloud of blooms far above the foliage, makes it a capital bedder. Pkt., 200 seeds, 4c.

SULPHO TOBACCO SOAP

A Wonderful Insect Exterminator—Unsurpassed for quickly exterminating all insect life on plants and flowers in and out of doors. Excellent for rose bushes, shrubs, etc. This popular insecticide never fails to give satisfaction, and is cheap, effective, clean, harmless, and non-injurious to the tenderest growth. It also acts as a valuable fertilizer, reviving plant life. A trial will give highly gratifying results. 8-oz. cake, sufficient for 1½ gallons prepared solution, mailed postpaid 18 cts. 8-oz. cake, sufficient for 4 gallons prepared solution, mailed postpaid, 28 cts.

NEW DOUBLE CALLIOPSIS.

BURBANK'S SHASTA DAISY.

THIS SHASTA DAISY is one of the most marvelous productions in the flower line that has ever been brought to the notice of floriculturists. Blooms for several months. The flowers are extremely large and graceful, averaging about four inches in diameter, with three or more rows of petals of the purest glistening whiteness, and are borne on single, strong, stiff, wiry stems, nearly two feet in length. The blooms when cut remain perfectly fresh and in good condition for two weeks or more. No other flower can compare with it in usefulness. It is perennial, but blooms the first year from seeds.

Pkt., 100 seeds, 10 cts.

My Asters and Nasturtiums were the finest I ever saw. Your seeds are all good and with them I have better luck than anyone in our town. I had one bed of Nasturtiums 4-ft. by 75-ft. that was a solid mass of colors.

Mrs. R. Q. McClure,
Glenwood, Ark.

BURBANK'S SHASTA DAISY
ONE-HALF NATURAL SIZE.

NEW SNOWBALL DAISY.

A beautiful white flowered variety having very long stems with large double flowers, about eighty per cent of which are extremely double. Pkt., 300 seeds, 5 cts.

DOUBLE DAISY.

BELLIS PERENNIS—Daisies are easily grown from spring sown seed and come into flower in a very short time. The flowers are white, pink, red and variegated. Not all will come double from seed. Finest mixed. Pkt., 300 seeds, 5c.

THE BLUE DAISY.

AGATHEA COELESTIS—The flowers are the very counterpart of the Paris Daisy, which is sky blue with a yellow disc. It makes a very pretty object for summer decoration in the flower garden; of easy growth and the plant may be had in flower all the year 'round. It is allied to Cineraria, and requires about the same treatment. A fine winter bloomer. Pkt., 200 seeds, 4 cts.

DATURA CORNUCOPIA

DATURA CORNUCOPIA, "HORN OF PLENTY."

Discovered in South Africa by a collector of Orchids. The plant is of robust habit, with thick, dark, brown-purple, shining stems. The branches are numerous, spreading 3 or 4 feet; thick, large, dark green colored leaves. The flowers are trumpet-shaped, measuring 8 or 10 inches in length and 5 to 7 inches across the mouth, and form three distinct flowers growing each within the other. The mouth of the corolla is the most delicate white, beautifully marked with purple. The single plant gives from 200 to 300 fragrant blooms during the season, followed by a large, thorny seed vessel, which adds to its beauty; is one of easiest culture; plant at the end of May in a warm, rich soil; can be cultivated as an isolated specimen, in masses for center of beds, or to fill barren places, and produces a striking effect.

Pkt., 15 seeds, 5 cts.

DELPHINIUM, LARKSPUR.

Well known annuals of great beauty and remarkable for the richness of their colors; invaluable for large gardens. Mixed. Pkt., 200 seeds, 4 cts.

DELPHINIUM, FORMOSUM.

A hardy perennial variety, flowers bright blue with white center. Pkt., 200 seeds, 4 cts.

DIGITALIS, FOX GLOVE.

A handsome and ornamental hardy perennial of stately growth, for shrubbery and half shady places. Pkt., 500 seeds, 3 cts.

DOLICHOS, HYACINTH BEAN.

This beautiful annual climber should have a place in every flower garden. It is of very rapid growth. Pkt., 30 seeds, 4 cts.

ESCHSCHOLTZIA.

CALIFORNIA POPPIES—Hardy annual, growing about 1 foot high, bearing a profusion of rich, yellow flowers, about 2 inches in diameter, making a blaze of color in the sunbline and fully as valuable as the common Poppy for garden ornamentation, and as easily grown.

Pkt., 400 seeds, 3 cts.

For list of Roses, Clematis and Bedding Plants, see Floral Culture, a copy of which goes free with every order.

EUPHORBIA.

MARGINATA—(Snow on the Mountain). Plants two feet high, with beautiful foliage, elegantly veined and margined with white; very showy.

Pkt., 5 cts.

MEXICAN FIRE

PLANT. Heterophylla—The leaves are at first green, but at the end of each branch appear greenish-white flowers, enveloped in beautiful orange-scarlet bracts, and leaves are blotched with vivid carmine.

Pkt., 8 cts.

Delphinium, or Larkspur.

DIANTHUS.

DWARF SNOWBALL—This beautiful dwarf variety belongs to the Hedderwigii class of Dianthus. The plants are very compact dwarf growth and are covered with lovely, spotless, snow-white flowers very full and double. From its dwarf growth it is very attractive for edgings, while the flowers are also very useful for bouquets.

Pkt., 150 seeds, 4 cts.

DWARF FIREBALL—The most brilliant annual pink in cultivation; the plants are constantly covered with blood-red, perfectly double, lacinated flowers until checked by severe frosts. Pkt., 150 seeds, 4 cts.

I had beautiful Asters last summer, all my friends would say—"How beautiful, I never saw such Asters."

Mrs. N. A. Cottrell.
Feb. 15, 1913. Aurora, Ills.

DIANTHUS OR CHINESE PINKS.

BEST MIXED—One of the most useful and desirable plants, and for beauty and variety of colors and markings cannot be surpassed, ranging from pure white to the most delicate pink and glowing deep crimson. A bed of these in the flower garden will make a grand display at small cost. The mixture I offer includes, besides the standard sorts, all the new and brightest colors in spotted, striped and handsomely fringed varieties of late introduction, both single and double. I guarantee it will give satisfaction with any other strain offered. Pkt., 200 seeds, 4 cts.

NEW LARGE-FLOWERED DWARF DOUBLE HYBRID PINKS.

The plants grow only nine or ten inches high, with extra large double flowers, frequently measuring three inches across—of perfect form and brilliant colors, ranging from pure white to deep crimson, while many are beautifully variegated and fantastically marked. Blooming freely the first season. Pkt., 150 seeds, 4 cts.

DIANTHUS, PLUMARIUS, PHEASANT'S-EYE PINK.

Dianthus, Plumarius, is the old-fashioned Grass Pink. It is perfectly hardy, blooms very profusely in early summer, and is admirable on account of its delicacy, showiness and fragrance. Its use either as a cemetery or garden flower is always satisfactory. Pkt., 100 seeds, 4 cts.

WILD FLOWER GARDEN.

Choice mixed seeds. A mixture of many varieties of beautiful, easy growing flowers, producing a constant and varied bloom the whole season, and is especially suited for those who wish only a few seeds each of the leading varieties or a much more extensive collection than their means will permit. In no other manner can so many seeds be obtained for such a small cost. The mixture is especially prepared from choice, fresh seeds, the colors and varieties being carefully proportioned, and will be found superior to any mixture offered. They are very useful for sowing alongside the garden fence, and on untidy bare spots of ground and cannot fail to give satisfaction. Pkt., 300 seeds, 4 cts.; oz., 15 cts.

GAILLARDIA

NEW DOUBLE—Annual. Large, double flowers, valuable for cutting. The colors embrace sulphur, golden yellow, orange, amaranth and claret. Pkt., 200 seeds, 4 cts.

PERENNIAL VARIETIES—

These are undoubtedly among the choicest of hardy perennials; the flowers are large, very numerous, excellent for cutting and of the most brilliant shades of orange, crimson, scarlet and vermillion, and very often a combination of all these colors in one flower. Many colors. Pkt., 100 seeds, 5 cts.

GOURDS.

ORNAMENTAL—Tender, annual climbers, with curiously shaped fruit in various colors, many of which are peculiarly marked. Pkt., 40 seeds, 4 cts.

JAPANESE NEST EGGS—Resembling in color, shape and size the egg of hens; are uninjured by wet or cold, and therefore make the best nest eggs. Pkt., 40 seeds, 4 cts.

CACTUS DAHLIA.

CACTUS DAHLIA.

Broad-petaled double flowers, esteemed by many the finest of all. Very distinct and extra fine for cutting. Pkt., 50 seeds, 5c.

DAHLIA.

DOUBLE—Everyone knows and admires the Double Dahlia, but comparatively few are aware that it can be grown so easily from seed, and flowers so beautifully the first season that the purchase of bulbs is a needless expense. Choice mixed. Pkt., 50 seeds, 5c.

DAHLIA.

NEW STRIPED SINGLE—The extra large single flowers, quite four inches in diameter, comprise a wonderful variety of colors, beautifully striped, flaked, mottled and dotted in a grotesque and charming manner. Pkt., 50 seeds, 4 cts.

Last year the Asters that I received from your seeds, were very much admired, especially the Royal Purple and Vick's Rose King.

Mrs. Edith M. Ames.
Mar. 28, 1913. Lincoln, Maine.

GLOXINIA. GLOXINIA.

The Gloxinia is a grand flower and makes a lovely pot plant; as easily grown and cared for as many of the common flowers. The handsome bell-shaped flowers embrace a great variety of the richest and most beautiful colors, ranging from pure white to dark red, pink, bluish, lavender, indigo blue, marble and spotted. They will bloom in four or five months from time seed is sown. Pkt., 100 seeds, 10 cts.

GERANIUM

FINEST MIXED—The most popular plant grown either for pot culture in winter or for bedding out in summer. No flowering plants are more grown, and certainly none more suitable for large beds where a mass of bloom is desired, or for single specimens in pots for the house. But few are aware that they can be grown easily from seed, and flowers the first season if sown early, and will frequently reward the cultivation with charming new varieties; in fact propagation by seed is the only sure way to obtain new varieties.

Pkt., 50 seeds, 10 cts.

GERANIUM. Good mixed.

Pkt., 30 seeds, 6 cts.

GODETIA.

FINEST MIXED—Beautiful, hardy annuals, remarkable for the delicacy of their very fine large blossoms; flower deep rose pink, rosy carmine, snow-white with bright carmine rose spots, carmine, crimson, lilac with purple and white. Pkt., 400 seeds, 3 cts.

IRIS, FLOWERING FLAGS.

KAEMFERI, JAPANESE IRIS—This is one of the showiest of the "Flags," and is now extensively used in the hardy garden. Blooms the second year from seed. Pkt., 100 seeds, 5 cts.

ICE PLANT.

MESESBRANTHEMUM—A handsome and curious plant for hanging baskets, rock work and vases. The leaves and stems appear as though covered with ice crystals and look like rock candy. The whole plant is peculiarly brilliant in the sunshine. Pkt., 400 seeds, 4 cts.

I want to tell you what splendid success I am having with your seeds this spring. The Cannas and Poincannas were up in a week, and all others are fine. Never had such fine success before with any other seeds. Mrs. C. F. Harrington, Elthridge, N. Y.

GERANIUM

HELIOTROPE.

Heliotrope is a universal favorite on account of its delightful fragrance and duration in bloom, flowering equally well as bedding plants in summer, or as pot plants in the house during the winter. Seed sown in the spring make fine plants for bedding out, and are as easily grown as verbenas. Pkt., 200 seeds, 4 cts.

HELIOTROPE.

LEMOINE'S GIANT—Of vigorous growth and producing heads of flowers double the size of the old sort. Pkt., 200 seeds, 5c.

FEVERFEW.**DOUBLE, MATRICARIA**

EXIMIA—A fine old-fashioned bedding plant; also suitable for pot culture. It grows about 18 inches high, with numerous branching flower stems, which are literally covered with very double pure white flowers an inch in diameter. Blooms until frost. Pkt., 200 seeds, 4c.

**FORGET-ME-NOT.**

VICTORIA—Of stout and bushy habit of growth, bearing umbels of large bright, azure blue flowers, with central double blooms, and when fully grown is quite globular in shape and perfectly covered with flowers. This beautiful Forget-Me-Not is the best for carpet bedding edgings and masses, and for growing in pots. Pkt., 200 seeds, 4 cts.

FORGET-ME-NOT.

PINK—*Myosotis Alpestris*, *Rosea*. One of the earliest plants to flower in the spring. This plant is bushy, stalks 12 inches long; is an excellent border plant, and can be easily multiplied by division of the roots. Pkt., 200 seeds, 5 cts.

FORGET-ME-NOT, "VICTORIA."

HOLLYHOCKS, PRIZE DOUBLE.

The perfect doubleness of the magnificent large flowers will please the most critical. All the best colors, from deep yellow, red rose, light buff, carmine, scarlet, flesh color, creamy white tinted with rose, purple, yellow on dark ground, crimson flaked with salmon, cherry red, cream on violet ground, lilac on brown ground, dark crimson to pure white, also black. If sown early in March or April the plants will bloom the first year. All mixed colors.

Pkt., 50 seeds, 5 ets.

Double		Double	
Maroon50 seeds, 5c	Salmon Rose	50 seeds, 5c
Bright Pink	50 seeds, 5c	White50 seeds, 5c
Bright Red	50 seeds, 5c	Yellow50 seeds, 5c

HOLLYHOCKS, DOUBLE ALLEGHANY.

Mammoth flowers, wonderfully formed of loosely arranged fringed petals, which look as if made from the finest China silk, and have none of the formality of the ordinary type. The colors vary from the palest shrimp pink to deep red. Pkt., 50 seeds, 5 ets.

HOLLYHOCKS, SINGLE.

Many prefer the single-flowering Hollyhocks. They are usually of freer growth than the doubles, and present a very handsome appearance when covered with their artistic blossoms. Pkt., 50 seeds, 4 ets.

ANNUAL HOLLYHOCKS.

This new strain possesses all the virtues of the double old-fashioned Hollyhocks, with the additional advantage of blooming from seed the first year. Plants started from seed sown in March or April in the house or hot bed, transplanted in May into their permanent place, will bloom in August and continue

until fall. The plants branch out freely and are not easily attacked by the Hollyhock fungus, therefore retain their fresh, bright green leaves until late. The flowers are double, semi-double or single. Pkt., 50 seeds, 4c.

KOCHIA

TRICOPHYLLA.

SUMMER CYPRESS OR BURNING BUSH. The plants grow freely from seed sown in the open ground, when the trees are coming out in leaf, and from the earliest stage of growth in the spring until they reach maturity in the fall the plants are always of globe-like form. The plants branch freely, and stems are clothed with slender light green leaves—the bushy plants resembling balls of fire. The plants are equally showy, planted singly to show the round ball-like form on all sides, or grown in continuous rows or hedges.

Pkt., 200 seeds, 4 ets.

IMPATIENS SULTANI.

This most distinct and beautiful plant is almost a perpetual bloomer. The flowers are of a brilliant rosy scarlet, and are produced so freely that a full grown specimen appears to be a ball of flowers and continues in full beauty several months.

Pkt., 100 seeds, 5 ets.

JOB'S TEARS.

COIX LACHRYMA—Curious, ornamental grass, with broad, corn-like leaves and seeds of a light slate color. Valuable for the formation of winter bouquets. Strings of handsome heads are made from the seeds. Hardy annual, 3 feet high. Pkt., 30 seeds, 4 ets.; oz., 20 ets.

THE FAMOUS CHINESE KUDZU.

A vine that will grow everywhere. Flourishes where nothing else will grow, and lasts for many years. The large bold leaves of the brightest green afford a dense shade. Its greatest feature is its wonderfully strong growth, which makes it invaluable for covering arbors, fences, porches, dead or old trees, etc.

Hardy, grows 50 feet, with dense foliage to the ground.

Pkt., 40 seeds, 5 ets.

HUMULUS.

HUMULUS JAPONICUS.

VARIEGATED JAPANESE HOP—One of the most rapid climbers grown; seeds can be sown in the open ground in the spring and it will attain enormous dimensions very quickly. The foliage is luxuriant and variegated. It is one of the best plants for covering verandas and trellises. Heat, drouth and insects do not trouble it. Pk., 40 sds., 5c.

HIBISCUS.

GOLDEN BOWL—This is a plant that will bloom early from spring-sown seed, the enormous flower measuring 5 or 6 inches across, beautifully cupped and of the most exquisite, soft canary yellow, with a large black center. These beautiful flowers are borne in great profusion all summer. Pkt., 30 seeds, 5c.

I raised 45 Dahlias from one 5 cent packet of your seed last year.

Mrs. Chas. Nixon.
Charleston, Ills.

HEUCHERA.

(ALUM ROOT) SANGUINCA.

One of the finest hardy perennials. The flowers are of a rich, bright crimson color; the leaves light green and slightly hairy. Excellent for cutting. Pkt., 500 seeds 5 cts.

HELICHRYSUM.

A very popular everlasting; large, full double flowers of various colors, from bright yellow to scarlet, shaded and tipped. Handsome bouquets may be formed of them for winter, if blossoms are gathered when on the point of expanding. Pkt., 200 seeds, 3c.

HELIANTHUS.

SUNFLOWER—(Globosus Fistulosus.) The best and most effective of all annual Sunflowers; flowers immense, from 12 to 15 inches in diameter, globular and extremely double. Of easy culture as well as showy. Pkt., 40 seeds, 4 cts.

The Nasturtiums I raised from your seed last summer were beautiful and contained colors I had never before seen in that flower. Mrs. A. M. Quirk,
Lockport, N. Y.

HIBISCUS, GOLDEN BOWL.

**LOBELIA.**

A very valuable and beautiful class of mostly dwarf growing plants; their delicate drooping habit, and the profusion of their charming little blue and white flowers, render them exceedingly ornamental for vases or hanging baskets, and rockeries, blooming from June to November, while for border cultivation they are equally effective. Mixed colors. Pkt., 500 seeds, 4 cts.

STAR OF ISCHI—Of very dwarf, erect growth, forming dense balls of charming azure blue flowers. Pkt., 400 seeds, 4 cts.

WHITE GEM—The best dwarf white variety. Pkt., 400 seeds, 4 cts.

LATHYRUS.

They do not have the delicious fragrance of the Sweet Peas, but they are equally beautiful. They are perfectly hardy and live year after year, bearing magnificent clusters of flowers, and bloom early in the spring. Pkt., 50 seeds, 4 cts.

LINARIA.

KENILWORTH IVY—A very pretty and well known hardy, perennial, trailing plant, for covering rock work, and very useful for hanging baskets. The flowers are small but pretty, and for a drooping plant, nothing can be better, as it is easily grown from seed. Pkt., 300 seeds, 4 cts.

LINUM.

CRIMSON FLAX—Excellent for clumps and edgings and one of the best and most showy hardy annuals for bedding. May be raised in any quantity from seed sown in March or April where the plants are intended to flower. They are not at all fastidious regarding soil, doing well in any ordinary garden. Pkt., 200 seeds, 3 cts.

LAVENDER.

OLD-FASHIONED SWEET—A well-known, sweet scented, hardy perennial, bearing long spikes of blue flowers. Pkt., 200 seeds, 4 cts.

**LANTANA.**

Well-known shrubby plants, with clusters of verbena-like flowers, and producing their pink, yellow, orange and white beads in great abundance. Mixed. Pkt., 30 seeds, 5c.

I am sending you a small order for flower and vegetable seeds, please send me also "Floral Culture."

I have had seeds from you for several years, and the Asters are the finest I ever saw.

Bertha Gewe,

Mar. 19, 1913.

Dresden, Ohio.

MIGNONETTE

MACHET, TRUE—An entirely new and distinct sort, of great merit. It is of dwarf and vigorous growth with massive spikes of deliciously scented red flowers.
Pkt., 300 seeds, 4 cts.

GOLDEN QUEEN—A very fine variety; flowers of golden hue; highly effective; of dense pyramidal habit and deliciously fragrant.
Pkt., 300 seeds, 4 cts.

NEW GIANT RED—The flower spikes are of the largest size, unequalled by any other variety, while the color is uniform and a strikingly distinct red.
Pkt., 300 seeds, 4 cts.

SWEET, RESEDA ODORATA
A favorite on account of its fragrance. Pkt., 300 seeds, 4 cts.; oz., 12 cts.

**MIGNONETTE, MACHET TRUE.****MIMOSA**

SENSITIVE PLANT—An interesting and curious plant. The leaves will close and drop at the slightest touch. Mostly grown as a curiosity.
Pkt., 30 seeds, 3 cts.

MARVEL OF PERU

FOUR O'CLOCK—It is one of the most brilliant and showy plants that can be grown with little or no trouble. Finest mixed. Pkt., 40 seeds, 4 cts.

MEXICAN MOUNTAIN ROSE

ATTIGONON ANNUAL—Flowers which are of rich carmine scarlet shade, are borne in great clusters the entire length of the vine. It is a beautiful and rapid growing climber and valuable alike for the shade it affords and for the blossoms it produces.
Pkt., 25 seeds, 5 cts.

**MIMULUS, MONKEY FLOWER.****MIMULUS, MONKEY FLOWER**

Tender looking plants with singularly shaped and brilliantly colored flowers, blotched and spotted in every conceivable manner. Excellent for baskets and vases, while they thrive well in the open garden. Fine hybrid mixed. Pkt., 300 seeds, 4c.

MIMULUS MOSCHATUS

MUSK PLANT—A well-known and favorite plant. Cultivated on account of the musky odor of the plant. Pkt., 300 seeds, 3 cts.

MAURANDIA

A beautiful rapid, graceful climber for greenhouse, parlor, basket or outdoor purposes, with rich purple, white and rose, fox-glove shaped blossoms.
Pkt., 200 seeds, 3 cts.

MOON- FLOWER

IMOMAEA NOCTIFLORA—It bears lovely white flowers 5 to 6 inches in diameter with a five pointed star in the center. The flowers open at dusk or earlier on cloudy days, at which time they are deliciously fragrant. Start the seed in the house and set out as early as safe in the spring
Pkt., 15 seeds
8 cts.

EVENING GLORY

BONA NOX.
Violet; flowers large and fragrant, especially in the evening.
Pkt., 10 seeds
5 cts.

**IMPERIAL
JAPANESE**

**MORNING
GLORIES**

IMPERIAL JAPANESE MORNING GLORIES.

They measure from 4 to 6 inches across and their greater substance causes them to remain open much longer than the ordinary Morning Glories. The colors of the flowers and the shadings and markings are limitless, and are really wonders of nature of such incomparable beauty that descriptions are inadequate. Pkt., Single and Double Mixed, 75 Seeds, 5 cts.; oz., 20 cts.

TALL MORNING GLORIES, OLD-FASHIONED.

All colors mixed. Pkt., 100 seeds, 4 cts.; oz., 10 cts.

MARIGOLD, THE ELDRADO.

The large bushy plants are each a ball of brilliant color, many single plants having seventy-five flowers in bloom at one time. The flowers are 3 to 4 inches in diameter, imbricated and perfectly double. They embrace four shades of color—the lightest primrose, lemon, golden yellow, and deep orange. Pkt., 100 seeds, 4 cts.

MARIGOLD, FRENCH MIXED.

A class of showy and extremely effective plants, with fine double flowers of rich and beautiful colors; very well adapted for large beds and bordering. Pkt., 100 seeds, 4c.

MARIGOLD, LEGION OF HONOR. DWARF SINGLE.

The blooms are of medium size, rich golden yellow, with the center of each petal broadly marked with velvety crimson brown and with clustering stamens in bright shades of orange yellow; blooms abundantly from July until cut down by frost. So easily raised from seed that I strongly recommend it to everyone. Pkt., 100 seeds, 4c.

NICOTIANA AFFINIS.

When its large, pure white flowers are fully expanded in the evening and early morning, it has a most striking effect, and is so fragrant that a small bed will perfume the whole surrounding atmosphere. If the plants are taken up in the fall, cut back and potted, they will bloom freely all winter in the house. Pkt., 300 seeds, 5 cts.

NIGELLA, LOVE-IN-A-MIST.

Hardy annual, known as "Devil-In-Bush" and "Lady-In-Green" because the blossoms are partially concealed by the abundance of finely cut foliage. The plant and flower are both handsome and require but little care. Pkt., 150 seeds, 3 cts.

OXALIS.

It is not generally known that these annual varieties of Oxalis are fully equal for edging to the varieties grown from bulbs. Mixed colors. Pkt., 200 seeds, 4 cts.

ORNAMENTAL GRASSES.

All the annual varieties mixed, many of them being really handsome in growth, and all of them desirable for winter bouquets, if cut while green and dried in the shade. Pkt., 200 seeds, 4 cts.

Just a few lines to tell you how well our Castor Beans did last year from your seed. Plants grew 11 ft. high, and leaves measured 37 inches across. They were beautiful, and admired by everybody. Then we had some Grandiflora Petunias, which bloomed all summer; such a variety and large perfect blossoms as we had, they were simply grand. We would not be without them, and shall try to have still better ones this year.

Miss Marie Ehlers,
April 8, 1913. Bensenville, Ills.

PRIMULA SINENSIS; CHINESE PRIMROSE.

Many persons seem to think that Primulas are successfully propagated only in the greenhouse. They are unequaled as winter bloomers, easily grown if the right conditions are observed, and give a succession of flowers throughout the season.

Single fringed, finest mixed. Pkt., 50 seeds, 8 cts.

PRIMULA, DOUBLE.

Best mixed, all colors. Pkt., 30 seeds, 15 cts.

PRIMULA OBCONICA.

Primula Obconica is as near an everblooming plant as it is possible to obtain. It has been known to flower for over twelve months without a break. Pkt., 100 seeds, 5 cts.

POLYANTHUS, PRIMULA ELATIOR.

Showy, early spring, free flowering plants, fine for either pot or outdoor culture, hardy perennials; 9 inches. The best single; all colors mixed. Pkt., 200 seeds, 6c.

STAR PRIMULA.

(PRIMULA STELLATA HYBRIDA.) Many of the blooms are equal in form and purity of color to those of the Chinese Primula, and, as they last longer and the plants can be much more easily grown, they deserve to be widely cultivated. Pkt., 100 seeds, 6 cts.

THE MEXICAN PRIMROSE.

The superb colors, combined with airy grace and a beautiful form, make a flower which is almost perfection. The plant seldom grows over ten inches in height, but inclines to a trailing habit, sweeping its branches out over the ground, or drooping out over the sides of the pot, holding its large, silky flowers erect. As a window plant it combines great hardiness and ease of culture with unrivaled beauty and profusion of bloom. In the open ground it grows freely and profusely; will thrive well under any and all conditions and bloom the year around in pots, or during the spring, summer and fall, in the garden. Pkt., 100 seeds, 5 cts.

FOR LIST OF ROSES AND CLEMATIS SEE FLORAL
CULTURE, A COPY OF WHICH GOES FREE
WITH EVERY ORDER.

PETUNIA, GIANTS OF CALIFORNIA, MIXED.

The flowers are very large and the colors embrace every conceivable shade of crimson, white, violet, lavender. Pkt., 200 seeds, 10 cts.

PETUNIA, GRANDIFLORA, LARGE FLOWERING MIXED

The largest flowering and richest colored variety in cultivation. Single flowers frequently measure over five inches in diameter, ruffled or fringed on the edges and beautifully veined with various shades of purple, rose, lavender, yellow and crimson. Pkt., 200 seeds, 8 cts.

SINGLE PETUNIA, SNOWBALL.

Grows about eight inches high, with satiny, pure white flowers, and makes a beautiful edging or hedging plant. Pkt., 200 seeds, 3 cts.

NEW STAR PETUNIA.

An exquisite variety, either for the garden or pot culture, each flower having distinct white, starlike stripes, on rich purplish red ground. Pkt., 200 seeds, 3 cts.

PETUNIA, HYBRIDA—FINEST MIXED.

A splendid mixture, embracing all colors. They are excellent for bedding or massing. Pkt., 300 seeds, 3 cts.

WALKER'S EXCELSIOR PLANT FOOD.

Is a complete and odorless fertilizer for plants and flowers, containing nutritive, restorative, and color forming elements in soluble form, producing vigorous, healthy growth, and profusion of flowers, used and indorsed by the leading Horticulturists and growers. 2½ oz. can 15 cts.; 5 oz. can, 30 cts.; 12 oz. can, 50 cts.; all postpaid.

ORDER FROM MISS LIPPINCOTT.

PHLOX.

HORTENSIA FLOWERED—This is undoubtedly one of the handsomest species of the Phlox family. The flowers are borne in large umbels, just like a Hydrangea.

Pkt., 150 seeds, 4 cts.

DOUBLE FLOWERING—A very desirable class. Flowers are double and semi-double, and much longer than those of the single Phlox. The white is especially valuable as a cut flower. All colors mixed.

Pkt., 150 seeds, 4 cts.

NEW YELLOW—New yellow Phlox is a rich straw yellow of warm and glowing tones; flowers extra large and fine form. Pkt., 150 seeds, 4c.

LARGE FLOWERED—Pure pink. Pkt., 150 seeds, 4 cts.

LARGE FLOWERING—Brilliant Scarlet. A most effectual color for bedding. Pkt., 150 seeds, 4 cts.

LARGE FLOWERING—Pure White. Large, round flowers of splendid substance. Pkt., 150 seeds, 4 cts.

"STARRED AND FRINGED"—In the Fringed Flowers, the petals are partly fimbriated and partly three-toothed, in more than 20 different shades. In the Starred Phloxes the pointed central teeth of the petals are five or six times as long as the lateral ones and project beyond them like little spines, giving the flowers a star-like form. Pkt., 200 seeds, 4c.

DRUMMONDII GRANDIFLORA—Their long duration in bloom, combined with their almost unequalled richness of color, renders them invaluable service in the flower garden. The colors range in every conceivable shade, producing flowers twice the size of common Phlox. Pkt., 200 seeds, 4 cts.

PERENNIAL, CHOICEST MIXED—The perennial variety of Phlox is among the choicest of our bedding and border plants. They are hardy and need no protection; will flourish in any soil, succeeding better, however, in deep rich, rather moist ground. Pkt., 25 seeds, 4 cts.

NOTICE—ONE PACKET EACH OF THE ENTIRE COLLECTION OF PHLOX, NINE PACKETS, 30 CENTS.

PORTULACA, DOUBLE FLOWERING.

One of the most showy and beautiful annuals, with abundant, highly-colored flowers. For baskets, beds, masses or edgings it is invaluable. The seed I offer has been saved with extra care from the finest colors and will give a good proportion of double flowers. Pkt., 1000 seeds, 4 cts.; oz., \$2.00.

PYRETHRUM.

GOLDEN FEATHER—Beautiful golden-leaved foliage plants of special value for borders and ribbon beds. Pkt., 200 seeds, 4 cts.

ROSEUM—It is from this that the Persian Insect Powder is made. Flower large, yellow and rose colored. Pkt., 100 seeds, 5 cts.

POPPY, WHITE SWAN.

One of the most effective and valuable Poppies introduced for years. The plants are about 18 inches high, grow in very pretty hush form, crowned with flowers of enormous size, perfect form, very double and of the purest snow-white. Its flowering period is considerably longer than that of other Poppies. Pkt., 200 seeds, 4 cts.

HARDY PERENNIAL POPPIES.

ORIENTAL—A charming summer flowering plant, producing numerous leafy stems about 2½ ft. high, which are covered with deep crimson flowers.

Pkt., 150 seeds, 4 cts.

ICELAND POPPIES.

These fine perennial poppies produce flowers in great abundance the first year from the seed. The colors range from the purest white and yellow to the deepest glowing orange-scarlet, and have a delicious fragrance. Mixed colors.

Pkt., 200 seeds, 4 cts.

POPPY, THE SHIRLEY.

It is perfectly hardy and flowers the first year from seed. The flowers are large, exceedingly graceful and elegant; the colors are pure, soft and varied, and range from bluish white, rose, delicate pink and carmine, through lunumerable tints to bright sparkling crimson.

Pkt., 300 seeds, 4 cts.

BURBANKS, SANTA ROSA POPPY.

NEW STRAIN OF SHIRLEY POPPIES—This new strain is a mixture which is made up carefully so that there is a proper blending of the colors; some of the darker shades nearly approach blue or bluish purple—a color heretofore unknown in the Shirley Poppy. Pkt., 300 seeds, 4 cts.

POPPY, DOUBLE MIXED.**DOUBLE POPPIES**

MIXED—For dazzling richness and variety of colors, the flowers are unequalled. Simply scatter the seeds in the open ground and a mass of beauty will result.

Pkt., 300 seeds, 4 cts.

SCARLET POPPIES

TULIP—Large, vivid scarlet blossoms, which have a dark spot at the base of the petal. Pkt., 300 seeds, 5 cts.

ROSE

MULTIFLORA, TRUE—With seed of these roses, plants may be had in bloom in sixty days from the time of sowing. Plant at any time. They grow quickly and flowers appear in large clusters, and in such quantity that a plant looks like a bouquet. Perfectly hardy in the garden, where they bloom all summer. In pots they bloom both summer and winter. From a packet of seeds one will get Roses of various colors—white pink, crimson, etc. No two alike and mostly perfectly double and very sweet.

Pkt., 30 seeds, 8 cts.

ROSE, MULTIFLORA

SCARLET SAGE.

SALVIA SPLENDENS—One of the grandest plants in cultivation, a bed of them surpassing the finest scarlet Geraniums in brilliancy and continuous bloom. The lower spikes often measure 10 to 12 inches in length, and there are as many as 200 spikes on a well grown plant. From the time they first begin to flower the plants are never out of bloom until killed by late frosts. It is easily grown from seed. Pkt., 100 seeds, 5 cts.

BONFIRE—This is one of the finest Scarlet Sages, growing in a compact bush about 2 feet high by 2 feet in diameter. Its erect spikes of brilliant scarlet flowers stand clear above the dark green foliage and completely cover the plant. Pkt., 100 seeds, 8 cts.

FARINACEA—The plants form dwarf, compact bushes, with long spikes of beautiful blue flowers, which make a charming contrast when grown with the scarlet described above. Pkt., 100 seeds, 4 cts.

PURE WHITE, 2 FEET HIGH. Pkt., 100 seeds, 4 cts.

RHODANTHE.

A lovely everlasting, either in the garden or for winter bouquets; flowers white, rose, crimson. Pkt., 100 seeds, 3 cts.

RACINUS.

ZANZIBARIENSIS—An entirely new class from Africa, with leaves often measuring two feet across; the seeds are marbled, speckled and spotted. Pkt., 8 seeds, 4 cts.

CAMBOGIENSIS—Large palm-like leaves of a brilliant, bronzy-red maroon color, with large red veins. Pkt., 10 seeds, 4 cts.

CASTOR-OIL BEAN.

Many choice varieties mixed. Pkt., 10 seeds, 3c.

SUNFLOWER.

MAMMOTH RUSSIAN. Of gigantic dimensions, both flower and stalk. Oz., 5 cts.; 1 lb., 20c; post-paid.

CHRYSANTHEMUM-FLOWERED—Grows seven feet high. Perfectly double. The color is the brightest golden yellow. The flowers are so perfect in form that they resemble very double Chrysanthemum-flowered Asters, with long stems. Pkt., 5 cts.; oz., 25 cts.

SCARLET SAGE,
SALVIA SPLENDENS.

SALPIGLOSSIS.

VELVET FLOWER—The graceful flowers, borne on long stems, range in color from the most delicate shades of light blue and straw color to the deepest purple and the richest brown and maroon. The qualut, funnel-shaped flowers somewhat resemble those of the Petunia, and are borne in great profusion. Large flowering mixed. Pkt., 300 seeds, 4 cts.

SMILAX.

One of the most desirable window vines on account of its charming glossy green, elegant and graceful foliage; also fine for hanging baskets. It will grow several feet high the first season. Pkt., 50 seeds, 5 cts.; $\frac{1}{4}$ oz., 18 cts.

SWEET WILLIAM.

DIANTHUS BARBATUS—The Sweet William is one of the finest flowering plants among the hardy perennials. The flowers have a wide range of bright colors and varied markings, including the finest auricula-eyed varieties. Single and double mixed. Pkt., 200 seeds, 4 cts.

VINCA ROSEA.

A free flowering perennial, with glossy green foliage and beautiful circular flowers of a fine rose color. If sown early under glass and transplanted in a warm situation, will bloom in the summer and autumn, and may be potted for the house before frost. Pkt., 100 seeds, 3 cts.

SCABIOSA.

NEW GOLDEN YELLOW—The flowers are double, of a fine, pure yellow color, and are charming for bouquets. The plants are semi-dwarf and very free blooming. Pkt., 50 seeds, 3 cts.

SNOWBALL—The flowers are very large, measuring fully two inches in diameter, of purest white and very double. It comes quite true from seed. Pkt., 50 seeds, 3 cts.

DOUBLE BLACK—A new variety, with elegant double-black, purple flowers, so deep in color as to appear nearly coal black. Pkt., 50 seeds, 3 cts.

Mixed double, all colors. Pkt., 100 seeds, 3 cts.

JAPONICA—A hardy perennial variety from Japan, forming bushy plants $2\frac{1}{2}$ to 3 feet in height and bearing on long, wiry stems beautiful artistic lavender-blue flowers 2 to $2\frac{1}{2}$ inches across. The plants are extremely floriferous, producing a continuous crop from the end of June until late in autumn. A fine cut flower. Pkt., 50 seeds, 5 cts.

The Dahlla seed proved to be very satisfactory. The Asters and others seeds were quite a success.

Mrs. W. F. Mullnix.
Mar. 17. 1913. Mt. Airy, Md.

SWEET WILLIAM.

STOCK, TEN WEEKS.

THE LARGEST FLOWERING GLOBE PYRAMIDAL.
Immense spikes of perfectly double flowers, pyramidal in shape, the individual blooms frequently measuring from 2 to 2½ inches in diameter, ranging in color from crimson, rose, white, blue, lilac, brown and yellow. They are greatly prized for cut flowers on account of their fragrance and diversity of colors. Pkt., 100 seeds, 5 cts.

WHITE PERPETUAL, PRINCESS ALICE—The individual flowers are uncommonly large, of fine rosette-like shape, and of the purest possible white. If sown early will produce a great abundance of bloom from June until November. Pkt., 100 seeds, 5 cts.

PEACH BLOSSOM—The plants are of neat pyramidal habit of growth, crowded with magnificent heads of beautifully shaped, perfectly double, sweet-scented flowers of a delicate, peach-blossom color. For beauty and long continuance of bloom it is unsurpassed. Pkt., 100 seeds, 5 cts.

DWARF GERMAN—Fine Mixed.
Pkt., 100 seeds, 4 cts.

STOCK, TEN WEEKS.

PLATYCODON.

CHINESE BELL FLOWER—Hardy perennials, producing very showy flowers during the whole season. They form large clumps and are excellent for planting in permanent borders or among shrubbery. Mixed blue and white. Pkt., 500 seeds, 4 cts.

PASSIFLORA GRACILIS.

The "Fairly Passion Vine" is a charming annual; it has pretty light green leaves, and is a very dainty and graceful thing for hanging baskets, pots or trellises; will grow to a height of 10 to 12 feet out of doors. The flowers are white, followed by seed fruits, at first light green shaded white; when ripe they turn bright shining red and burst open, disclosing fiery scarlet seeds; the entire plant becoming covered with these fruits. Pkt., 20 seeds, 5 cts.

SCHIZANTHUS.

BUTTERFLY FLOWER—"The Poor Man's Orchid," neat, pyramidal bushes covered with a multitude of small butterfly like flowers of the most brilliant and striking color designs. Pkt., 500 seeds, 4 cts.

SCHIZANTHUS.

MAMMOTH VERBENA.

MAMMOTH VERBENA.

Flowers of unusual size, single flowers sometimes being as large as a twenty-five cent piece, while the clusters of bloom are magnificent and the range of colors more vivid than in any other mixture.

For garden beds or massing, the Verbena is unrivaled; flowers of the most brilliant color, blooming continually from spring until late in the autumn.

Although perennials, they bloom profusely the first season from seed. Pkt., 100 seeds, 5 cts.

PURE WHITE. Candidissima—A fine strain of large flowering, pure white Hybrid Verbenas; trusses large and borne freely at all times; always comes true from seed. Pkt., 100 seeds, 5 cts.

STRIPED. Very showy striped flowers of many bright colors. Pkt., 100 seeds, 5 cts.

DEFIANCE—True, brightest scarlet. Pkt., 100 seeds, 5 cts.

Primrose yellow. Pkt., 100 seeds, 5 cts.

Pink and Carmine. Pkt., 100 seeds, 5 cts.

Purple, Dark Purple. Pkt., 100 seeds, 5 cts.

ODORATA—This lovely Verbena is hardy; seed may be sown in the open ground early in the spring. The blossoms, instead of being in clusters, run up into spikes three or four inches long, and are very sweet-scented. Pkt., 100 seeds, 5 cts.

LEMON—This elegant, fragrant plant is easily grown from seed and succeeds anywhere. Have a good bed of it in the garden every summer, that you can cut its fragrant foliage and flowers to make up with bouquets. Pkt., 100 seeds, 5 cts.

ONE PACKET EACH OF THE ENTIRE COLLECTION OF VERBENAS.
30 PACKETS, FOR 35 CENTS.

WALL FLOWER.

DOUBLE MIXED—Spikes of deliciously fragrant double flowers, combining many shades of color, chocolate and orange, purple predominating. Pkt., 50 seeds, 5c.

SINGLE PARISIAN—Wall Flowers are the most delicately fragrant of all garden flowers; their cultivation has been restricted, however, because they did not bloom until a year after the seed was sown. The new annual variety will flower throughout the summer and fall from seed sown the same spring. Everyone should now grow some and enjoy the pleasing fragrance of the cinnamon-colored flowers. Pkt., 100 seeds, 4 cts.

VIOLET, VIOLA.

The violet should not be wanting in any garden, on account of its fragrance and early appearance. Succeeds best in a shady, sheltered place, and can be easily increased by dividing the roots. Finest mixed. Pkt., 150 seeds, 5c.

**NEW GIANT ZINNIAS.****NEW GIANT ZINNIAS.**

A new class of Zinnias, giant in size and perfectly double flowers of the richest and most varied colors and shapes. The plants grow about three feet high and bloom freely during a long period, making them particularly valuable for large groups.

Pkt., 100 seeds, 4 cts.

Pure White—Snow Ball..Pkt., 100 seeds, 4 cts. Golden Yellow..Pkt., 100 seeds, 4 cts.

Dwarf Scarlet—Fireball..Pkt., 100 seeds, 4 cts. Double Pink....Pkt., 100 seeds, 4 cts.

Zinnia—Choice double mixed. Pkt., 100 seeds, 4 cts.

ZINNIAS, DOUBLE LILLIPUT.

Dwarf, compact bushes, bearing very small, perfectly double, pom-pom-shaped flowers of the brightest colors, which cover the plant during the entire summer and until frost sets in. The flowers embrace a wide range of both light and dark colors, evenly distributed. Pkt., 100 seeds, 4 cts.

One Packet each of the 7 varieties of Zinnias for 25 cents.

WILD CUCUMBER. ANNUAL.

For covering porches and trellises.....Pkt., 20 seeds, 5 cts.; oz., 20 cts.

PLANTS.

HARDY FLOWERING SHRUBS.

Shrub orders must reach us not later than April 15, as the plants will not usually remain dormant after that date and they can not be successfully handled, except in a dormant condition.

HYDRANGEA, PANICULATA GRANDIFLORA.

(THE HARDY HYDRANGEA.)

One of the finest bardy shrubs ever introduced, and in size and magnificence of bloom not excelled by any shrub in cultivation. The bush in time attains a large size, growing in beauty year by year. It is in the full glory of bloom from August until the middle or last of October, when every branch is crowned with an immense panicle of fleecy, pure white flowers, changing later to a pinkish hue, sometimes a foot long and nearly as broad at the base, presenting an aspect of majestic grandeur that absolutely defies description. Entirely hardy, very free growing, a profuse bloomer and thrives in all soils. It should have a prominent place in every garden, not only because it is such a glorious shrub, but for its flowers appearing at a time when few others are to be found. It is planted in great numbers at Newport, and attracts a great deal of admiration at that well known place. A bed of one hundred makes a most striking appearance. Each 10 cts.; three for 27 cts., postpaid.

EVERBLOOMING SNOWBALL, HYDRANGEA.

Found growing wild in the rocky hills of Western Pennsylvania, this new hardy shrub was instantly recognized as something out of the ordinary and became a welcome addition to our list of really valuable plants. Few of our native garden shrubs are so attractive in habit and elegance of foliage. It is perfectly hardy, having stood a temperature of 20 degrees below zero without injury. The flower is very like the greenhouse Hydrangeas and pure white. The panicles are immense in size, but the everblooming habit of this variety is its most remarkable and valuable characteristic, blooming profusely from June until September. No hardy shrub introduced in years has had such unqualified endorsement as this New Everblooming Hydrangea. 18 cts. each, or three for 50 cts., postpaid.

SNOWBALL—VIBURNUM.

COMMON SNOWBALL (*V. opulus sterilis*)—A superb old-fashioned shrub, popular and much admired. Of large size and spreading habit, bearing in June large glohular clusters of pure white flowers resembling immense snowballs. Each, 12 cts.

JAPAN SNOWBALL (*V. plicatum*)—The best of the Viburnums, of purer color and better form than the above, and one of the finest flowering shrubs, but difficult to propagate and hence rather scarce. Moderate in growth and compact in form, rich deep green plicate foliage; large, glohular flower clusters of the purest white produced all over the bush in great abundance. Exceedingly choice, its fine flowers are very beautiful and its handsome plicate foliage makes it a lovely object at all times! 12 cts. each; the two for 20 cts., postpaid.

HONEYSUCKLES.

For real handsome vines, to be near you, climbing over windows and doorways, there is nothing prettier than sweet-scented Honeysuckles; the foliage is pretty, neat and clean, the flowers are almost continuous, and their fragrance delicious. The varieties described below are the very best.

HONEYSUCKLE HEDGES—Some of our friends have conceived the idea of planting Honeysuckles along the division fences, and it is wonderful what pretty hedges they make. Iron or wire fences are the best, but almost any kind is soon covered with a mantle of living green. Other climbing vines will answer the purpose, but the sweet-scented Honeysuckles are both fragrant and beautiful. They should be planted two feet apart.

HALL'S JAPAN—A strong growing, almost evergreen sort, with pure white flowers changing to yellow. Very fragrant and covered with flowers from July to November.

MONTHLY FRAGRANT—Red and yellow; very fragrant. Blooms all summer; leaves tinged reddish color.

SCARLET TRUMPET—Bright red trumpet-shaped flowers; blooms freely, vigorous and rapid growing. Price of Honeysuckles 12 cts. each; the three varieties, one of each, 30 cts.

PLANTS.

BUSH HONEYSUCKLES.

RED TARTARIAN—Well known and popular shrub for the lawn or garden. Blossoms in May and June.

WHITE TARTARIAN—Like the preceding, but with white blossoms. 12 cts. each; the two for 20 cts., postpaid.

SPIREA, (MEADOW SWEET.)

This class of shrubs offers a great variety, both in flowers and foliage, making them of the greatest value in a collection. They are of easy cultivation, rapid growth and will amply repay the planter with an abundance of flowers.

ANTHONY WATERER—New Crimson Spirea. By all odds the finest of the dwarf Spireas in brilliancy of color—a bright crimson—and is the most profuse and persistent bloomer of them all; bearing continuously large, flat clusters of lovely flowers throughout the whole of summer and autumn. The plant is of dwarf habit and dense growth, comes into bloom very early and when not more than fifteen inches high.

SPIREA BUMALDA—A dwarf-growing variety, producing a profusion of beautiful rose-colored flowers the entire summer and autumn.

SPIREA CALLOSA ALBA—A very fine dwarf-growing, white-flowered variety, perfectly hardy; blooms in July and August.

SPIREA PRUNIFOLIA (Bridal Wreath)—Very double; flowers pure white and borne profusely the entire length of branches, perfectly double, like little daisies.

SPIREA VAN HOUTTEI—A vigorous plant that sends up numerous tall, slender shoots, which curve gracefully towards the ground, and the last of May or in June are literally covered with pure white flowers, making the bush a mass of snowy bloom.

Price, 12 cts. each; the five for 50 cts., postpaid.

WEIGELA.

This is a family of strong, vigorous growing shrubs that can be used to the best advantage either for single lawn specimens or for massing with other varieties. We strongly recommend them.

CANDIDA—Handsome snow-white flowers, borne in great profusion during June and July. Handsome light green foliage.

EVA RATHKE (New)—This is a very valuable and attractive new variety. The flowers are of a very deep, rich crimson color and are produced with the utmost profusion.

ROSEA—Large rose-colored flowers almost covering the whole plant.

VARIEGATA (Variegated Leaved)—Deep green leaves with a broad, distinctly defined margin of white around each. Flowers not so conspicuous as on the other varieties, but of a beautiful clear blush.

Price of each variety Weigela, 12 cts.; the four for 40 cts., postpaid.

ALTHEA.

(ROSE OF SHARON.)

The Altheas are fine, free-growing flowering shrubs of the easiest cultivation. They produce a profusion of pretty rose-like flowers during August and September, when other flowers are scarce. The diversity of color of the different sorts makes it possible to use them in considerable quantities even in grounds of small extent. They make very pretty flowering hedges. Double Red, Double Purple, Double White. Price, 12 cts. each; the three (one of each) for 30 cts., postpaid.

SYRINGA.

(MOCK ORANGE.)

The Syringa or Mock Orange has been a favorite shrub from time immemorial and among the many and valuable new ones it still remains a favorite.

GARLAND—Flowers pure white and very highly scented; the profusion with which they are borne is what gives it the name of Garland Syringa.

GOLDEN—With beautiful golden yellow foliage, which keeps its color well the entire season. Will make a pleasing and striking contrast when planted with other shrubs. Price of each variety Syringa, 12 cts.; two for 20 cts., postpaid.
